“CORBIN”

POST-OFFICE * LOCK * BOXES

HAVE BEEN ADOPTED AND ARE USED BY

THE UNITED STATES GOVERNMENT.

THESE BOXES were adopted by the United States Government in 1888, and are of different construction from any box hitherto made. The Door and Frames are made from the best Bronze Metal in rich design and highly finished. The opening in Door is large and glazed with heavy plate glass. The sides and tops of Boxes are made of sheet steel, copper-plated and lacquered. The construction of sides and tops being of this metal, enables us to give a larger Box in the same space than those made of wood.

The “Corbin” Lock is made especially and used only for Post-Office Boxes. This Lock has an almost unlimited number of changes, and is most admirably adapted in every particular for Post-Office Boxes.

TO POSTMASTERS.

IN POST-OFFICES, where the salary is less than \$1,000.00, the income received from rental of boxes belongs to the Postmaster. If the Postmaster can furnish to his patrons a handsome outfit, conveniently arranged, he can considerably increase the income of the office. With this in view, we present the largest and most complete line of Boxes and Cabinets made by any concern. Our factory at Lake Geneva, Wis., was built and equipped with the most improved machinery and tools, especially for Post-Office work. At our factories in New Britain, Conn., the Metal Boxes and Locks are made by skilled workmen, and in presenting either the "Corbin," "Harvard," or other locks, we guarantee them to be the most secure and best adapted for Post-Office work.

It is our intention to carry Cabinets in stock at Lake Geneva, Wis., and New Britain, Conn., so that prompt shipment can be made from either point. Sample Boxes and Cabinets are shown at New York, Chicago, and San Francisco Warehouses.

In addition to illustrations shown, we are prepared to furnish designs and estimates on receipt of sketch giving dimensions of room, showing position of doors and windows, and stating number of Lock and Call Boxes wanted. These drawings we will furnish without charge, and in naming price the Postmaster will know exactly what the complete office will cost.

TERMS OF PAYMENT.

We offer to Customers two plans for payment of Cabinets or Outfits.

CASH PLAN. Cabinets and Outfits ordered on this basis are to be paid for on receipt of shipment.

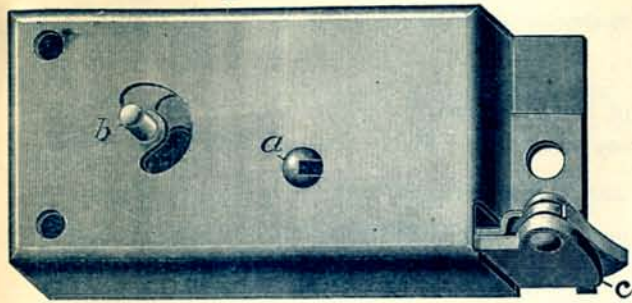

INSTALLMENT PLAN. Cabinets and Outfits ordered on this plan are to be paid for by remitting one-fourth of the installment price on receipt of shipment, and balance by three notes, payable quarterly, without interest.

RENTAL OF LOCK BOXES.

Any Postmaster desiring to rent Lock Boxes will be furnished with terms on application. State number of Boxes and size wanted, and manner in which they are to be arranged and numbered. We will then send rental agreement for signature, and on its return will forward the Lock Boxes.

The "Corbin" Lock.

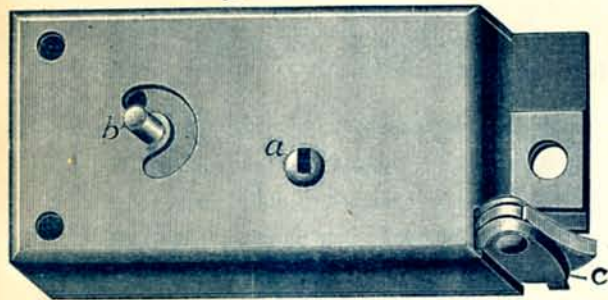

Fig. 1.

Master-Key.

Key used in "Corbin" P. O. Lock.
Three Keys to each Lock.

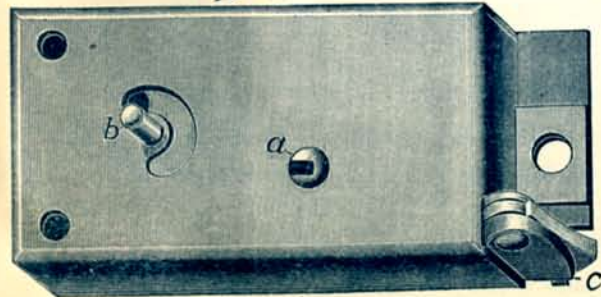

Fig. 2.

TO OPEN LOCK WITH MASTER-KEY.

Insert small end of key in the slot of Center, *A*, and turn to the left *one quarter turn*, which throws Center, *A*, from the position shown in Fig. 1 to that shown in Fig. 2. Then insert *Master-Key* in Hub, *B*, and turn to the left *as far as possible*, which will throw the Bolt, *C*, from the position shown in Fig. 1 to that shown in Fig. 2. Withdraw *Master Key*. Again insert end of key in the slot of Center, *A*, and turn to the left *another quarter turn*, which throws the Center, *A*, from the position shown in Fig. 2 to that shown in Fig. 3. The Lock is now ready for any key which may be inserted from the front-side, and the Bolt thrown, same as in changing from one key to another.

Fig. 3.

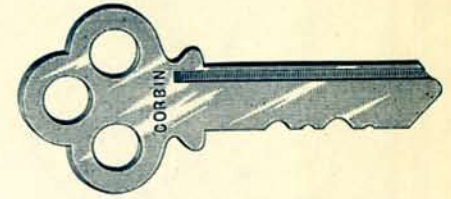

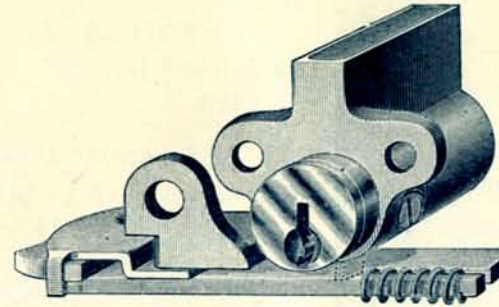

TO CHANGE KEYS.

Open the Box with key already fitted to it, press the thumb against end of Bolt, at same time turn the key as to unlock, making one half revolution of key and cylinder; remove key while in this position, and lock with new key.

When all keys are lost, open with a *Master-Key*, one or more of which are furnished with every office.

The "Harvard" Lock.

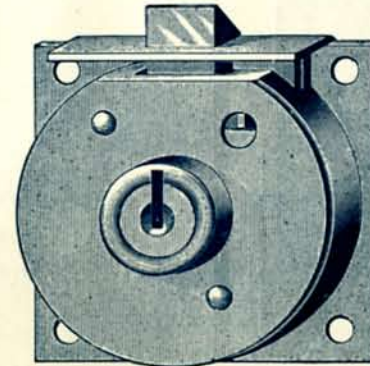

Key used with "Harvard" Lock.
Three Keys to each Lock.

The "Harvard" Lock is made of Bronze Metal. Each Lock has six pins or tumblers and differs from every other lock. Each Lock has three German-silver grooved keys. The Latch device is the same as is used in the "Corbin" Lock.

All Locks are secured to front with machine screws.

The "Geneva" Lock.

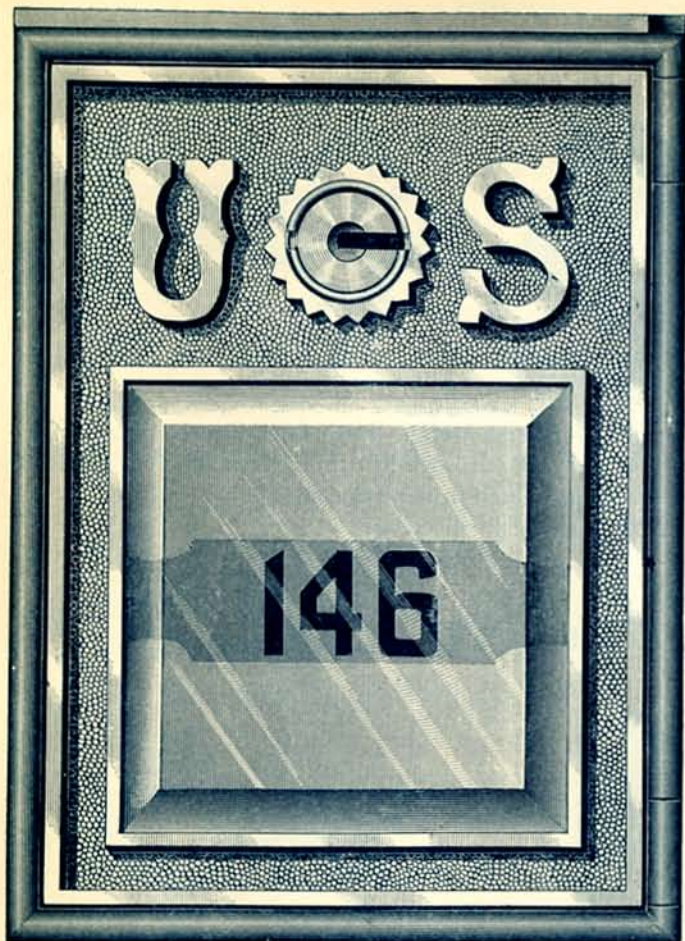

Key used in "Geneva" Lock. Three Keys to each Lock.

The "Geneva" Lock is made of Brass, with a heavy Bronze cap, tube, and centre. The Lock has five tumblers or levers, and is self-locking. Three German-silver keys are furnished with each Lock, and each Lock is different change from every other Lock. All Locks are secured to front with machine screws.

Extra Keys are furnished to Postmasters only by sending number stamped on key.

The "Corbin" Bronze-Metal Lock Box.

Full size cut of No. 1 "Corbin" Lock Box.

Cut of Key for "Corbin" Lock.

The **Door and Frame** of the "Corbin" Lock Box are made of the best quality of **Bronze Metal**, nicely finished and lacquered. The hinge is so constructed that it is impossible to remove the door until the Lock is unlocked.

The "Corbin" Lock, used on No. 1 and No. 2 Boxes and No. 3 Drawer, was adopted by the United States Government in 1888, and possesses features not attained in any other lock. Each Lock is provided with three nickel-plated flat steel keys.

The **Box** is made of **No. 21 sheet-steel** which is copper-plated and lacquered, and the frame is securely attached to the steel box. The sheet-steel box furnishes more room than the ordinary wood boxes, and the metal being flush with the frame presents a perfectly smooth box inside.

The **Openings** are glazed with **heavy plate Glass**. The glass is large so that box renter can readily see the contents of box.

The **Numbers** are plain **black or white figures**, on a **white, or black plate**, placed inside of the box in such a manner that they cannot be chipped off or defaced.

Inside Dimensions of "Corbin" Lock Boxes.

No. 1 Box,	3 $\frac{5}{8}$ inches wide,	4 $\frac{1}{2}$ inches high,	9 inches deep,	Price, each	\$2.75
No. 2 Box,	5 $\frac{1}{8}$ " " "	5 $\frac{1}{4}$ " " "	12 " " "	" "	3.00
No. 3 Drawer,	9 $\frac{7}{8}$ " " "	5 $\frac{5}{8}$ " " "	17 $\frac{5}{8}$ " " "	" "	3.25

For outside measurements, see page 7.

Above prices are for Boxes complete, numbered, and with brass name clip placed in screen and ready for shipment at New Britain, Conn., and Chicago, Illinois.

Discounts furnished on application.

Extra Keys furnished to Postmasters only by sending number stamped on key.

The "Corbin" No. 2 Bronze-Metal Lock Box.

The **Doors and Frames** are made of the best quality of **Bronze Metal**, nicely finished and lacquered.

The **Lock** in the "Corbin" Lock is described on page 3. Each Lock has three nickel-plated flat steel keys.

The **Box** is **sheet-steel**, copper-plated and lacquered, and is securely attached to the frame—flush with the frame—leaving the inside of the box perfectly smooth.

The **Panels** are made of **heavy plate glass**. The glass is large so that box renter can readily see contents of box.

The **Numbers** are plain **black**, or **white figures**, on a **white**, or **black plate**, placed inside the box ; and the figures cannot be chipped off or defaced.

No. 3 "Corbin" Lock Drawer.

(See cut, page 6.)

The **Front** is made of **bronze metal**, nicely finished and lacquered.

The **Lock** is the "Corbin" Lock, described on page 3.

The **Box** is made of well-seasoned whitewood, securely attached to the front

The **Panels** are **heavy plate glass**.

The **Numbers** are **plain black**, or **white figures**, on a **white**, or **black plate**, placed inside drawer pull and covered with thick plate glass.

Inside Dimensions of No. 2 Box and No. 3 Drawer.

No. 2 Box, $5\frac{1}{8}$ in. wide, $5\frac{1}{8}$ in. high, 12 in. deep. Price, each, \$3.00

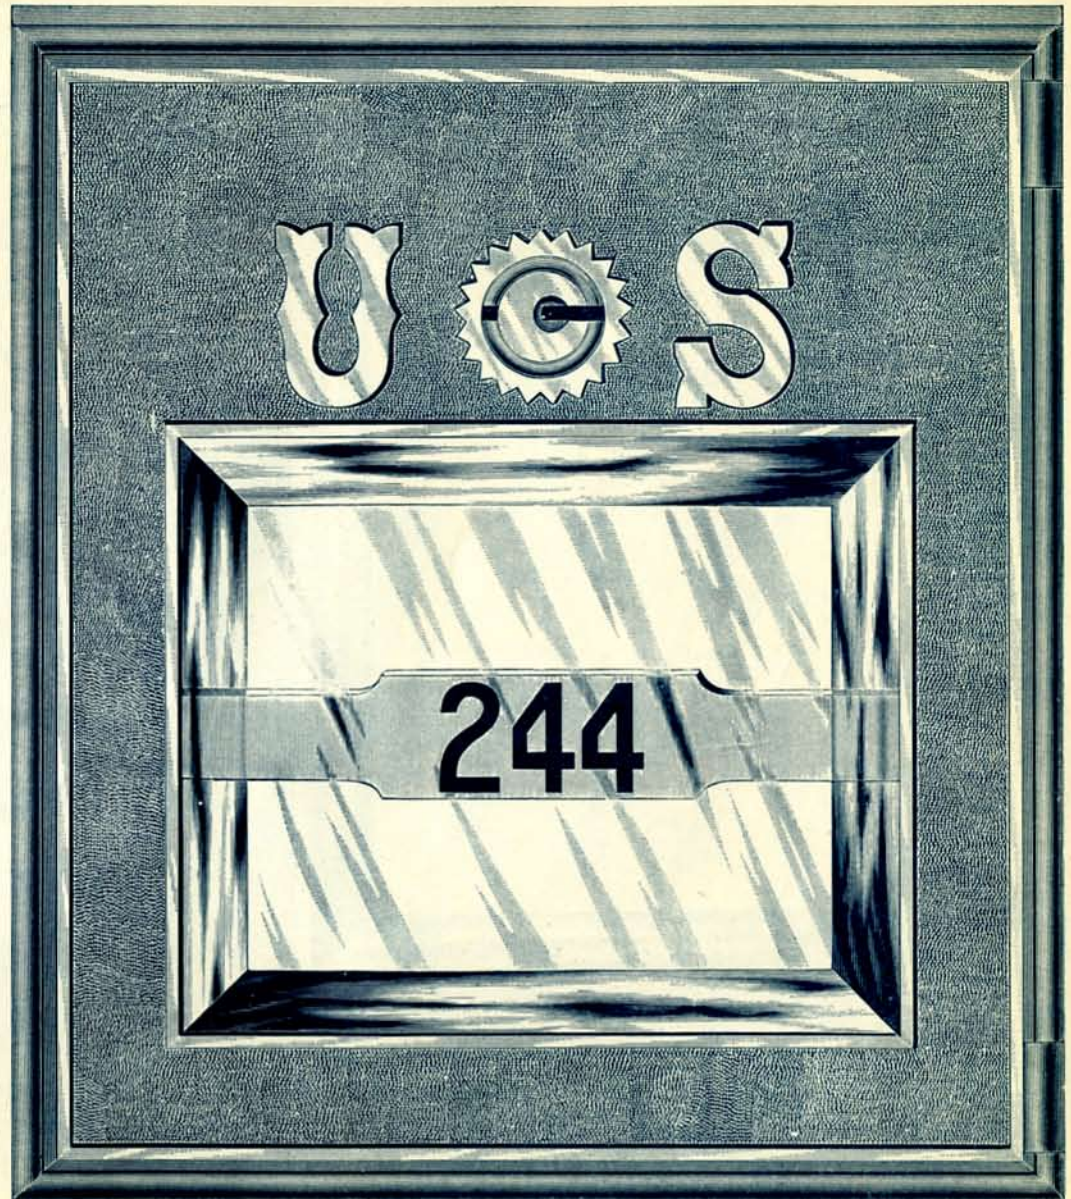

No. 3 Drawer, $9\frac{3}{8}$ " " $5\frac{5}{8}$ " " $17\frac{9}{8}$ " " " " 3.25

For outside measurement see page 7.

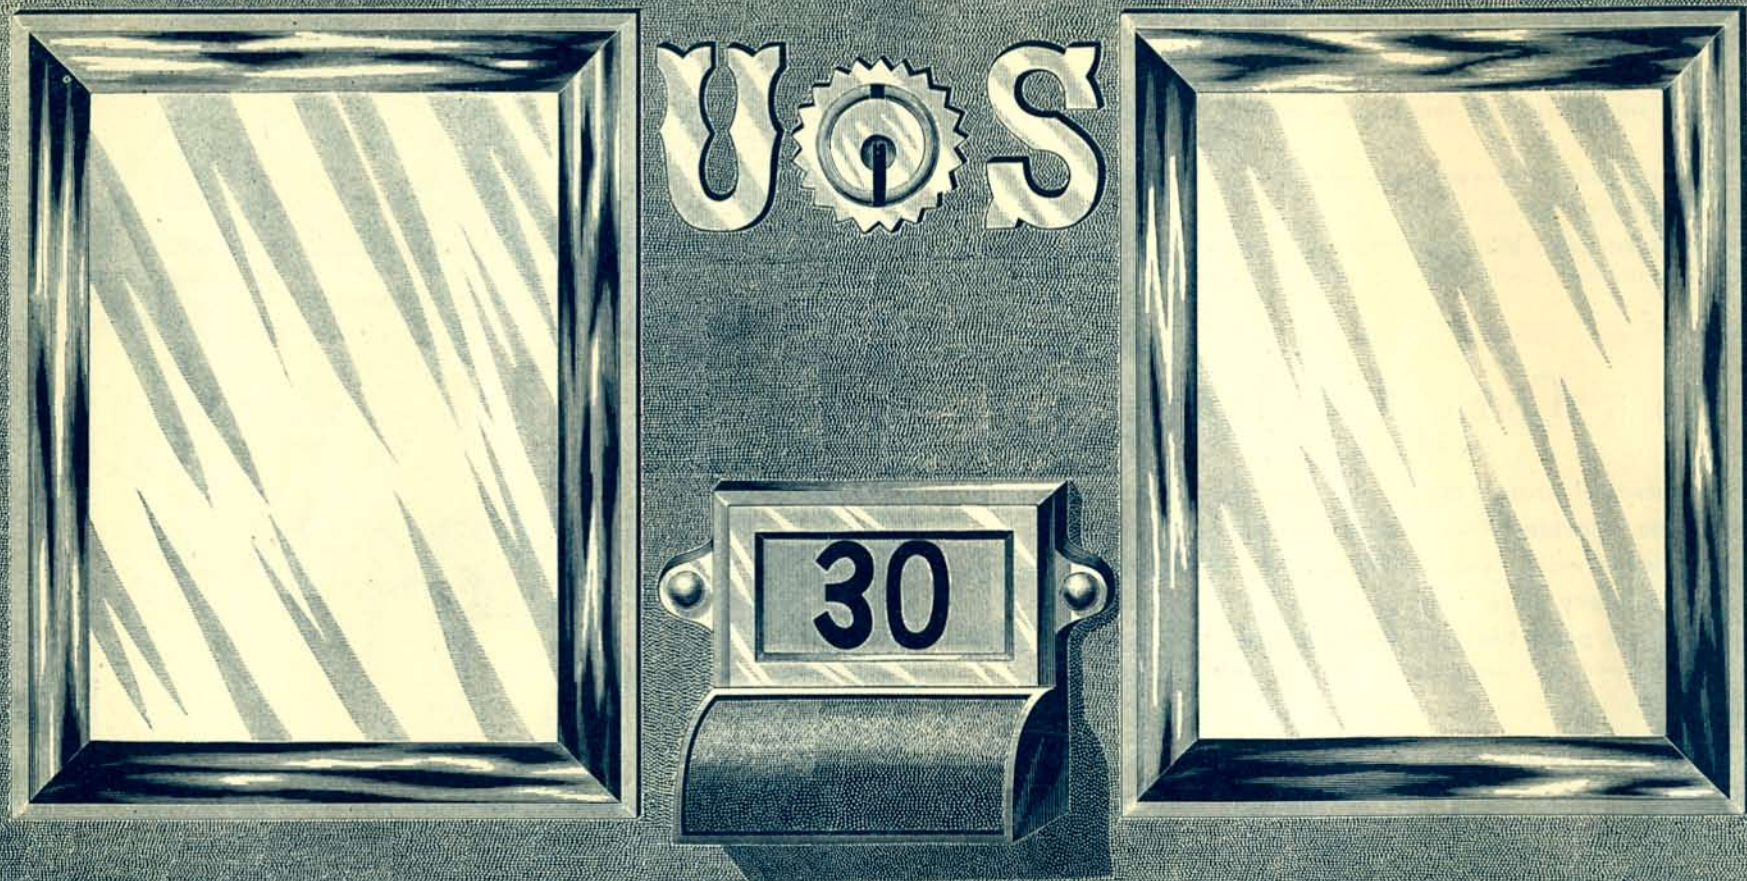

Prices are for Boxes and Drawers complete, ready for shipment at New Britain, Conn., and Chicago, Ill.

Discounts furnished on application.

For "Corbin" Boxes Nos. 1, 2, and 3, nested, see page 7.

Full size cut of No. 2 "Corbin" Lock Box

Full size cut of No. 3 "Corbin" Lock Drawer. For description and prices see page 5.

"Corbin" and "Harvard" Lock Boxes.

We present a nest containing "Corbin" and "Harvard" Lock Boxes. It will be seen that three No. 1 "Corbin" (or three No. 5 "Harvard") Boxes are same width as two No. 2 "Corbin" (or two No. 6 "Harvard") Boxes, and two No. 2 "Corbin" (or two No. 6 "Harvard") Boxes occupy the same width as one No. 3 "Corbin" (or one No. 7 "Harvard") Drawer.

Outside Measurements of "Corbin" and "Harvard" Lock Boxes.

						Price each.	
No. 1 "Corbin" Box,	No. 5 "Harvard" Box,	5	in. high,	$3\frac{5}{8}$	in. wide,	9	in. deep, \$2.75
No. 2 " " "	No. 6 " " "	$6\frac{1}{4}$	"	$5\frac{1}{2}$	"	12	" 3.00
No. 3 " Drawer,	No. 7 " Drawer,	$6\frac{1}{4}$	"	11	"	18	" 3.25

Discounts furnished on application.

For estimating space to be occupied by any number of Lock Boxes.

Height:— Multiply the number of Boxes high by height of each of such Boxes given above and add $2\frac{1}{4}$ inches for roundabout at top and bottom.

Width:— Multiply the number of Boxes wide by the width of each of such Boxes given above and add $2\frac{1}{4}$ inches for roundabout at ends.

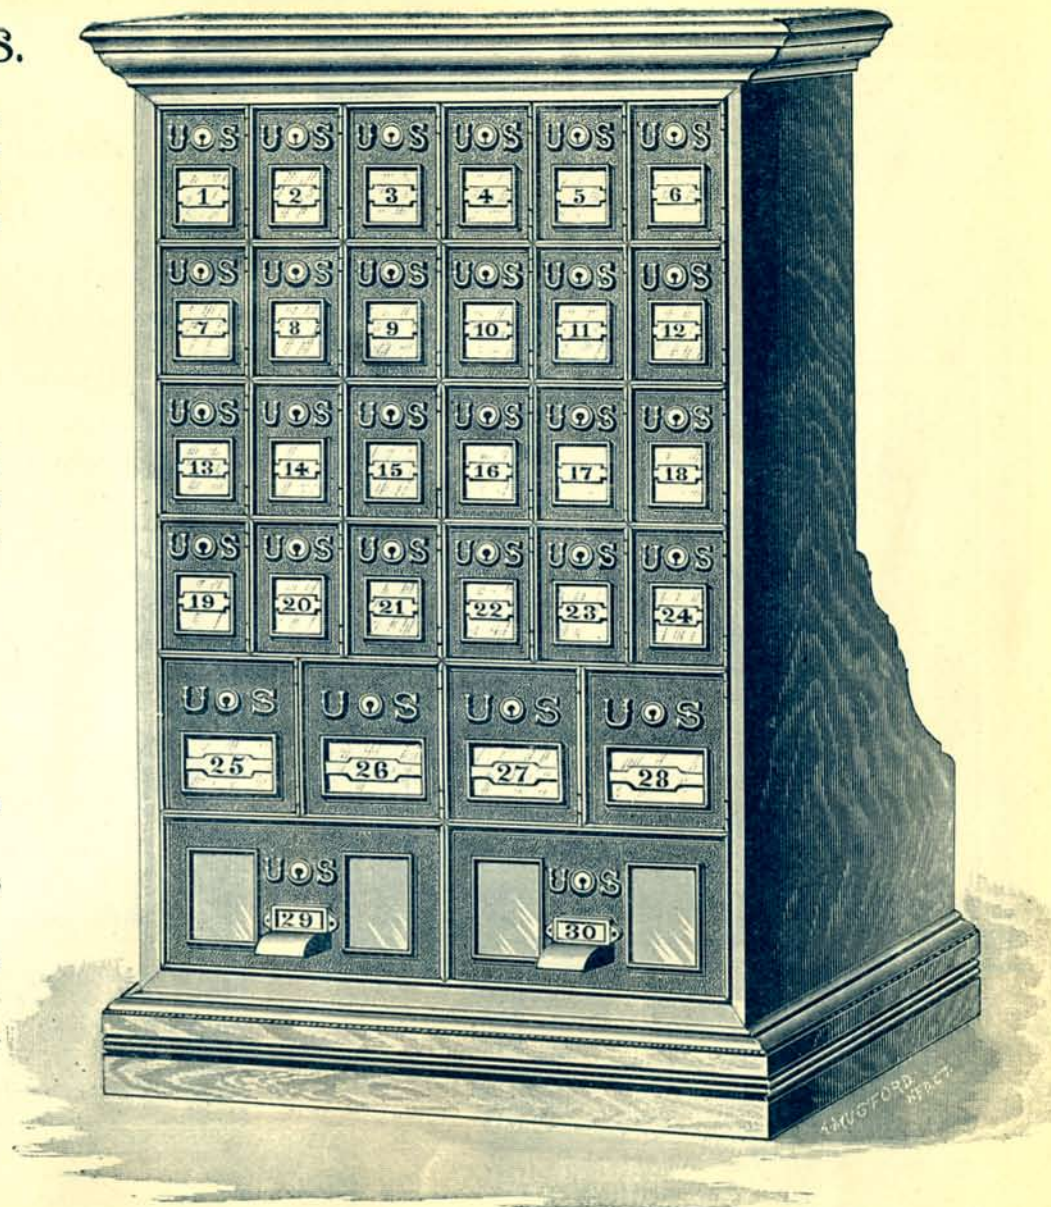

Thus 100 No. 1 Boxes, 10 wide and 10 high, equal $10 \times 3\frac{5}{8} + 2\frac{1}{4} = 38\frac{1}{2}$ inches wide, and $10 \times 5 + 2\frac{1}{4} = 52\frac{1}{4}$ inches high.

When necessary to remove a Box, the same can be taken from screen without interfering with any other box.

For description of "Corbin" Box, see page 4.

For description of "Harvard" Box, see page 8.

For rental of "Bronze" Boxes, see page 2.

The "Harvard" Bronze-Metal Lock Box.

The "**Harvard**" Lock Box differs from the "**Corbin**" Lock Box only in the Lock.

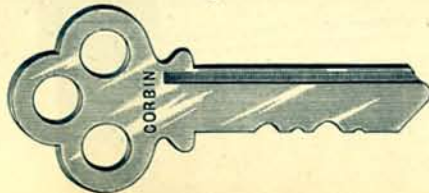

The **Doors** and **Frames** and **sheet-steel Box** are the same as used in the "**Corbin**" Box.

The **Lock** used in the "**Harvard**" Box is the "**Harvard**" Lock, and although not possessing the many advantages of the "**Corbin**" Lock, is a nicely made and very secure lock. (See page 3.)

The "**Harvard**" Lock is made with six pins or tumblers, and each lock is made different from every other lock. The "**Harvard**" Lock has an almost unlimited number of changes. Each lock is furnished with three grooved German-silver keys.

Full size cut of No. 5 "Harvard" Lock Box.

Cut of Key used in "Harvard" Lock.

Inside Dimensions of "Harvard" Lock Boxes.

No. 5 Box,	3 $\frac{5}{8}$ inches wide,	4 $\frac{1}{2}$ inches high,	9 inches deep,	Price, each, \$2.75
No. 6 "	5 $\frac{1}{8}$ "	5 $\frac{1}{8}$ "	12 "	" " 3.00
No. 7 Drawer,	9 $\frac{7}{8}$ "	5 $\frac{5}{8}$ "	17 $\frac{9}{8}$ "	" " 3.25

For outside measurements, see page 7.

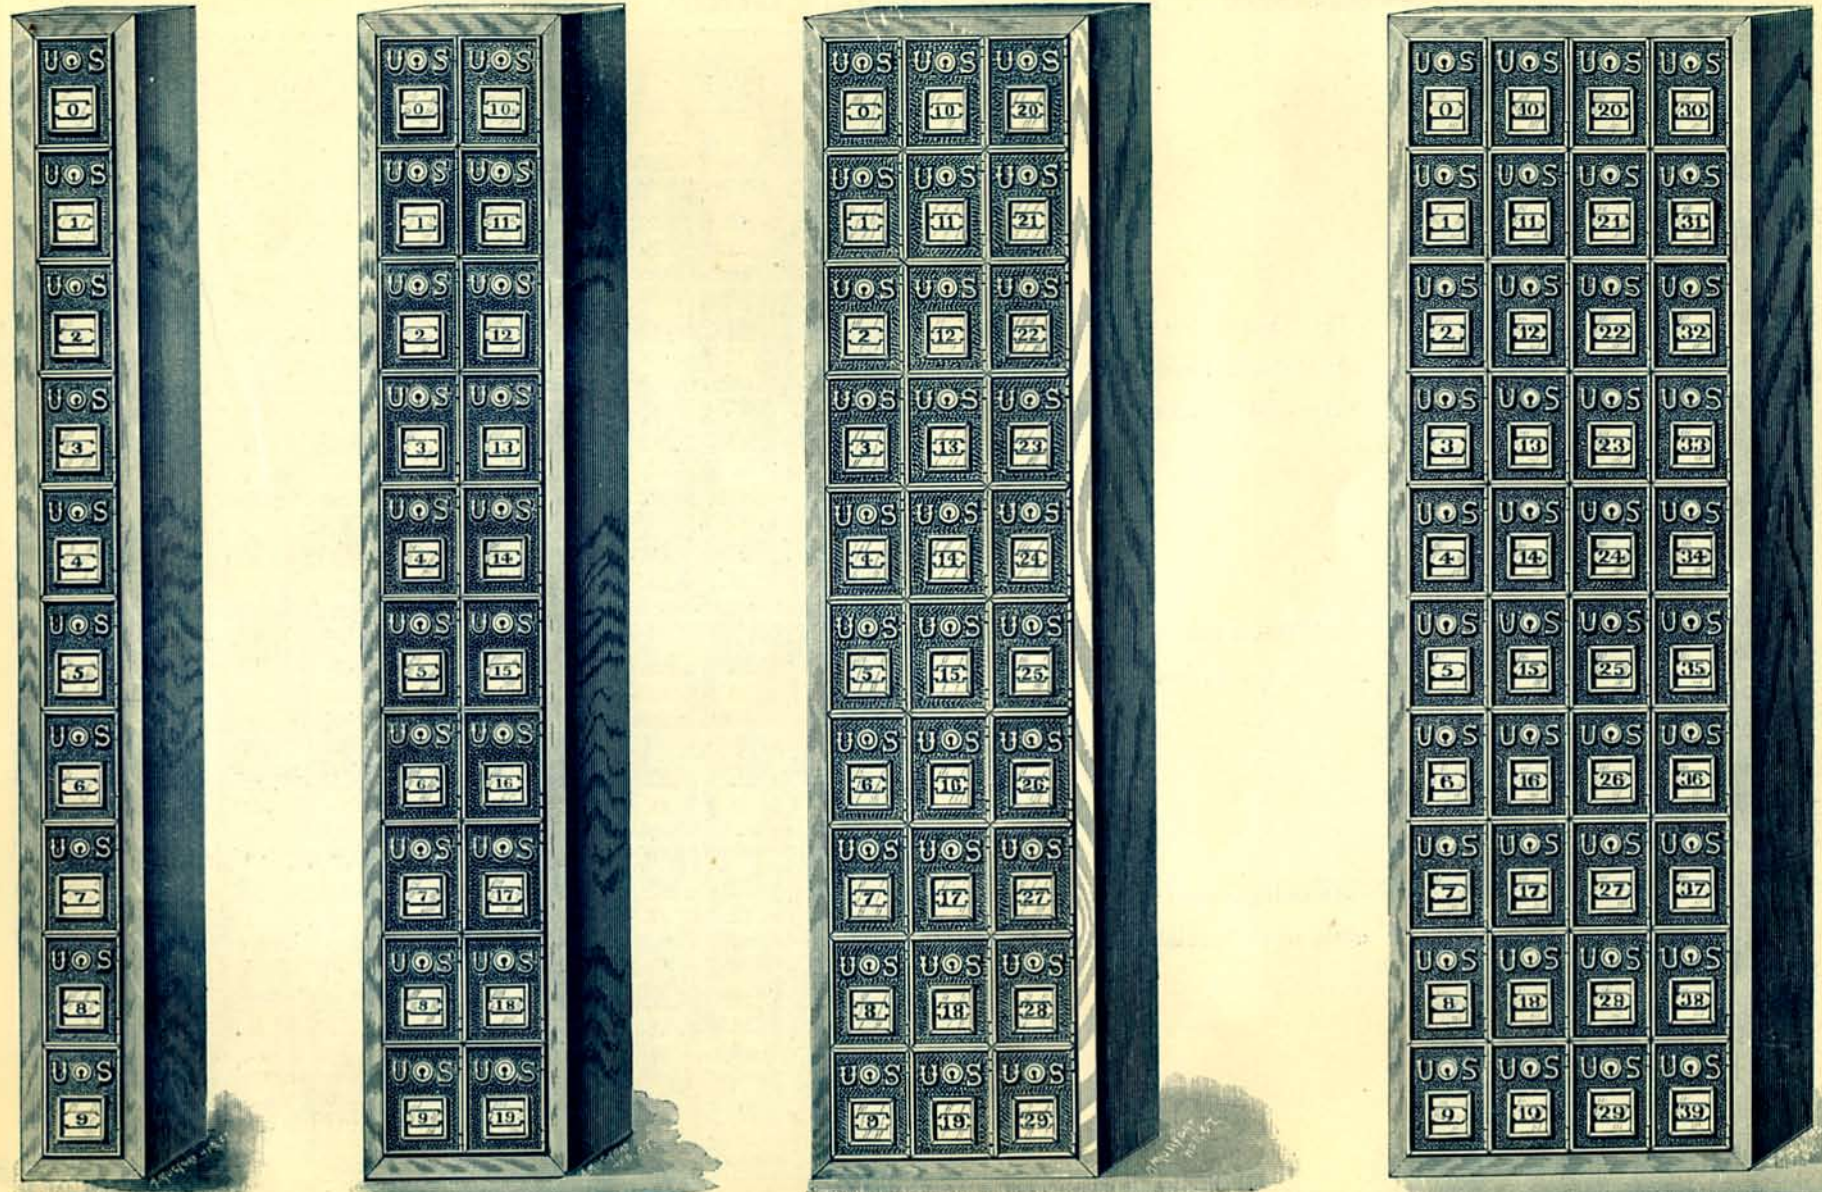

For cut showing appearance of No. 6 and 7 Box, see pages 5 and 6.

Discounts furnished on application.

Above prices are for Boxes complete, numbered, and with brass name clip, placed in screen and ready for shipment at New Britain, Conn., and Chicago, Ill.

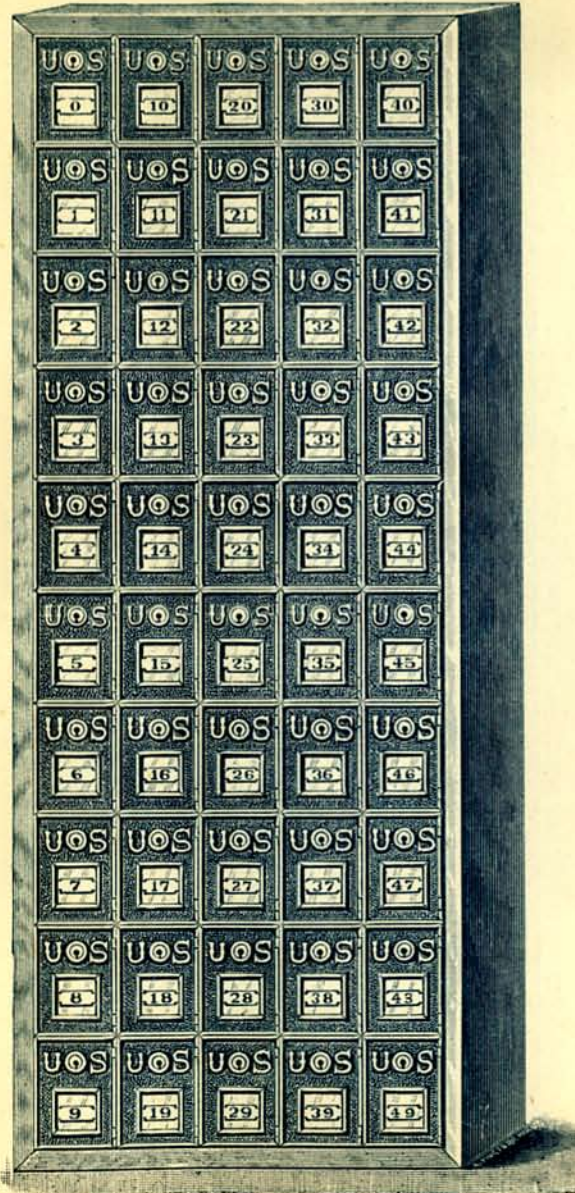

Extra Keys for "Harvard" Locks furnished to Postmasters only by sending number stamped on key.

"Corbin" Bronze-Metal Lock Boxes.

For description and prices of Bronze-Metal Boxes with "Corbin" or "Harvard" Locks see pages 3 to 10.

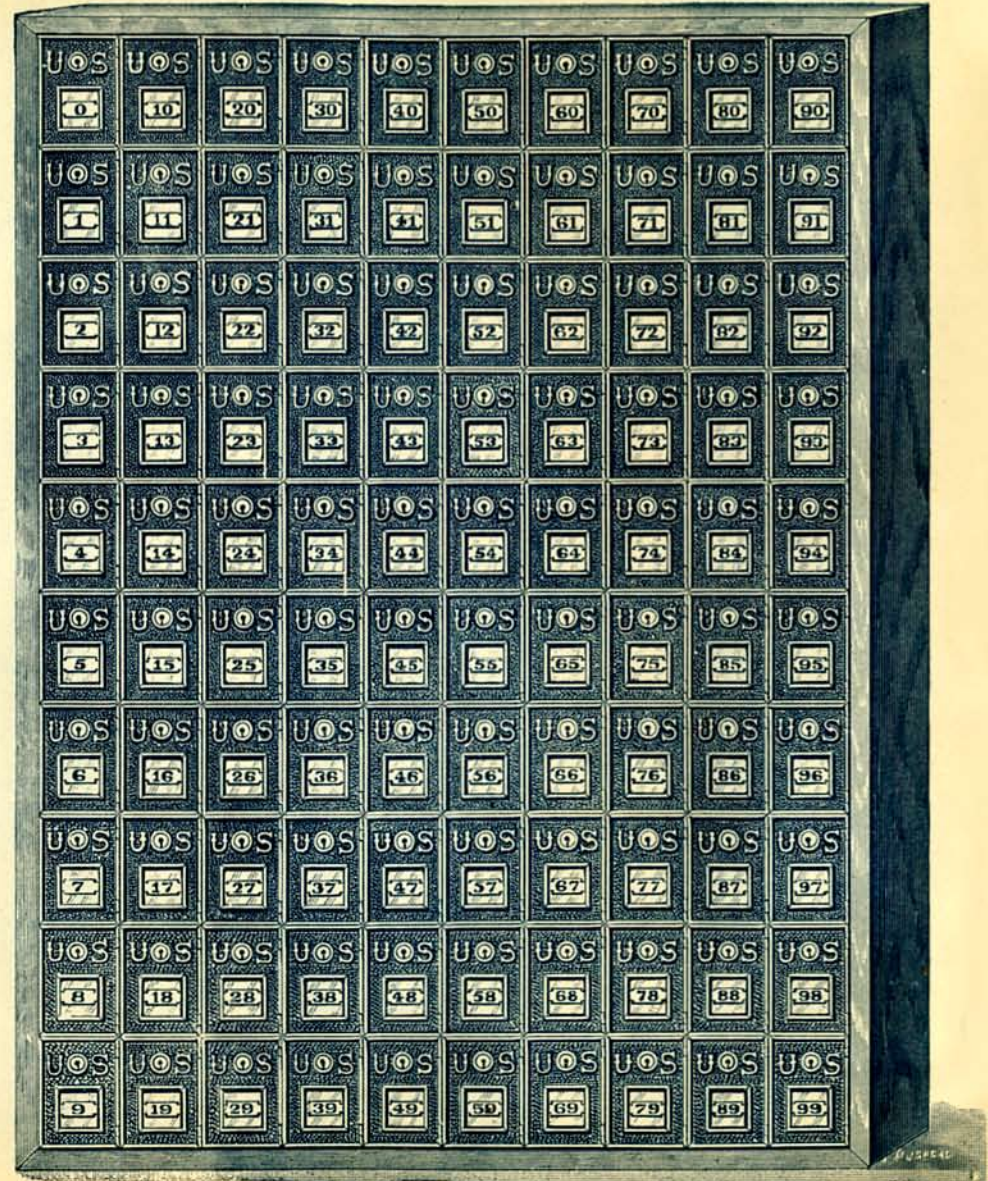

"Corbin" Bronze-Metal Lock Boxes.

For description and prices of Bronze-Metal Lock Boxes, with "Corbin" and "Harvard" Locks, see pages 3 to 10

All Boxes are carried in stock at New Britain, Conn., and Lake Geneva, Wis.

Drawings and estimates for Post-office work, furnished on application.

"Acme" Bronze-Metal Lock Boxes.

These **Fronts** are made of **Bronze Metal** of neat design and are nicely finished and lacquered.

The **Locks** used are the "**Geneva**" Bronze Spring Locks, made especially for Post-office work. Each Lock has three German silver keys and each lock is of different change from every other lock. Locks cannot be picked or get out of order, and are so constructed that they can be opened from the inside by the Postmaster, and the box renter can also be locked out from inside of office.

Heavy Plate Glass is used for the opening in front.

The **Numbers** are plain white figures on a black plate, placed inside the box in such a manner that they cannot be chipped off or defaced.

The **Boxes** are made of whitewood for the sides and with wire or wood bottom, and the Bronze Metal Front is securely attached to the hard wood frame.

Each Box is provided with brass **name clip** and **blank card** for name of box renter.

Inside Dimensions of No 10 "Acme" Lock Boxes.

No. 10, $3\frac{3}{8}$ inches wide, $4\frac{3}{4}$ inches high, 9 inches deep, Price, each, \$1.50

For outside measurement see page 14.

Above price is for box complete, placed in screen and ready for shipment at New Britain, Conn., and Chicago, Ill.

"Acme" Lock Boxes are nested, three of No. 10 Lock Boxes occupying the same width as two of No. 11 Lock Boxes, and the No. 12 Lock Box occupying the same height as two of No. 10 or two No. 11 Lock Boxes.

Discounts on above Lock Boxes furnished on application.

Extra Keys furnished to Postmasters only by sending number stamped on key.

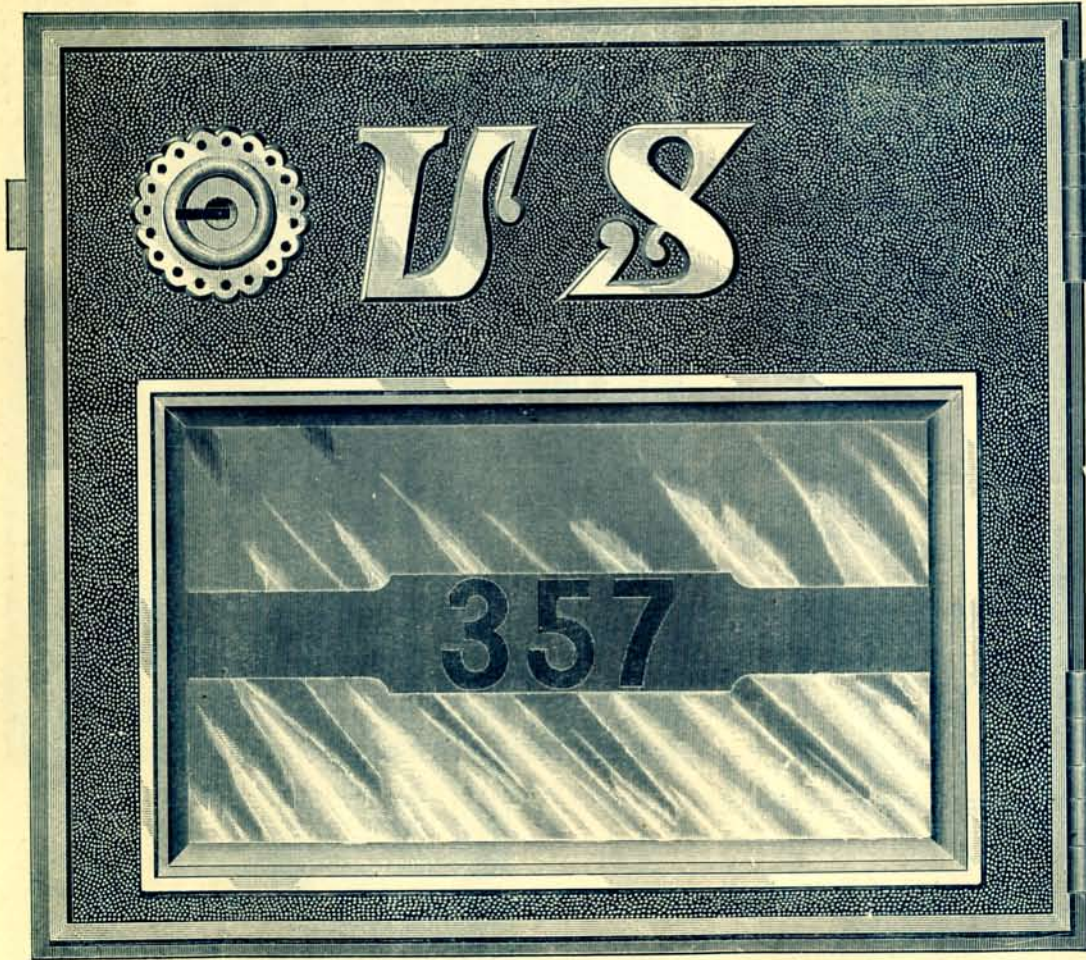

Full size cut of No. 10 "Acme" Bronze Lock Box.

Cut of Key used in "Acme" Lock Boxes.

"Acme" Bronze-Metal Lock Boxes.

Full size cut of No. 11 "Acme" Bronze Lock Box.

These **Fronts** are made of **Bronze Metal** of neat design, and are nicely finished and lacquered.

The **Lock** used is the "**Geneva**" Bronze Spring Lock as described on page 3, with three German silver keys to each lock.

Heavy Plate Glass is used for the opening in front.

The **Numbers** are plain white figures on a black plate, placed inside the box, and cannot be chipped off or defaced.

The **Boxes** are made of whitewood for the sides, and with wire or wood bottom, and the Bronze Metal Front is securely attached to hard wood frame.

Each Box is provided with **brass name clip** and **blank card** for name of box renter.

Inside Dimensions of No. 11 "Acme" Lock Box.

No. 11, $5\frac{5}{8}$ inches wide, $4\frac{3}{4}$ inches high, 9 inches deep, . Price, each, \$1.75.

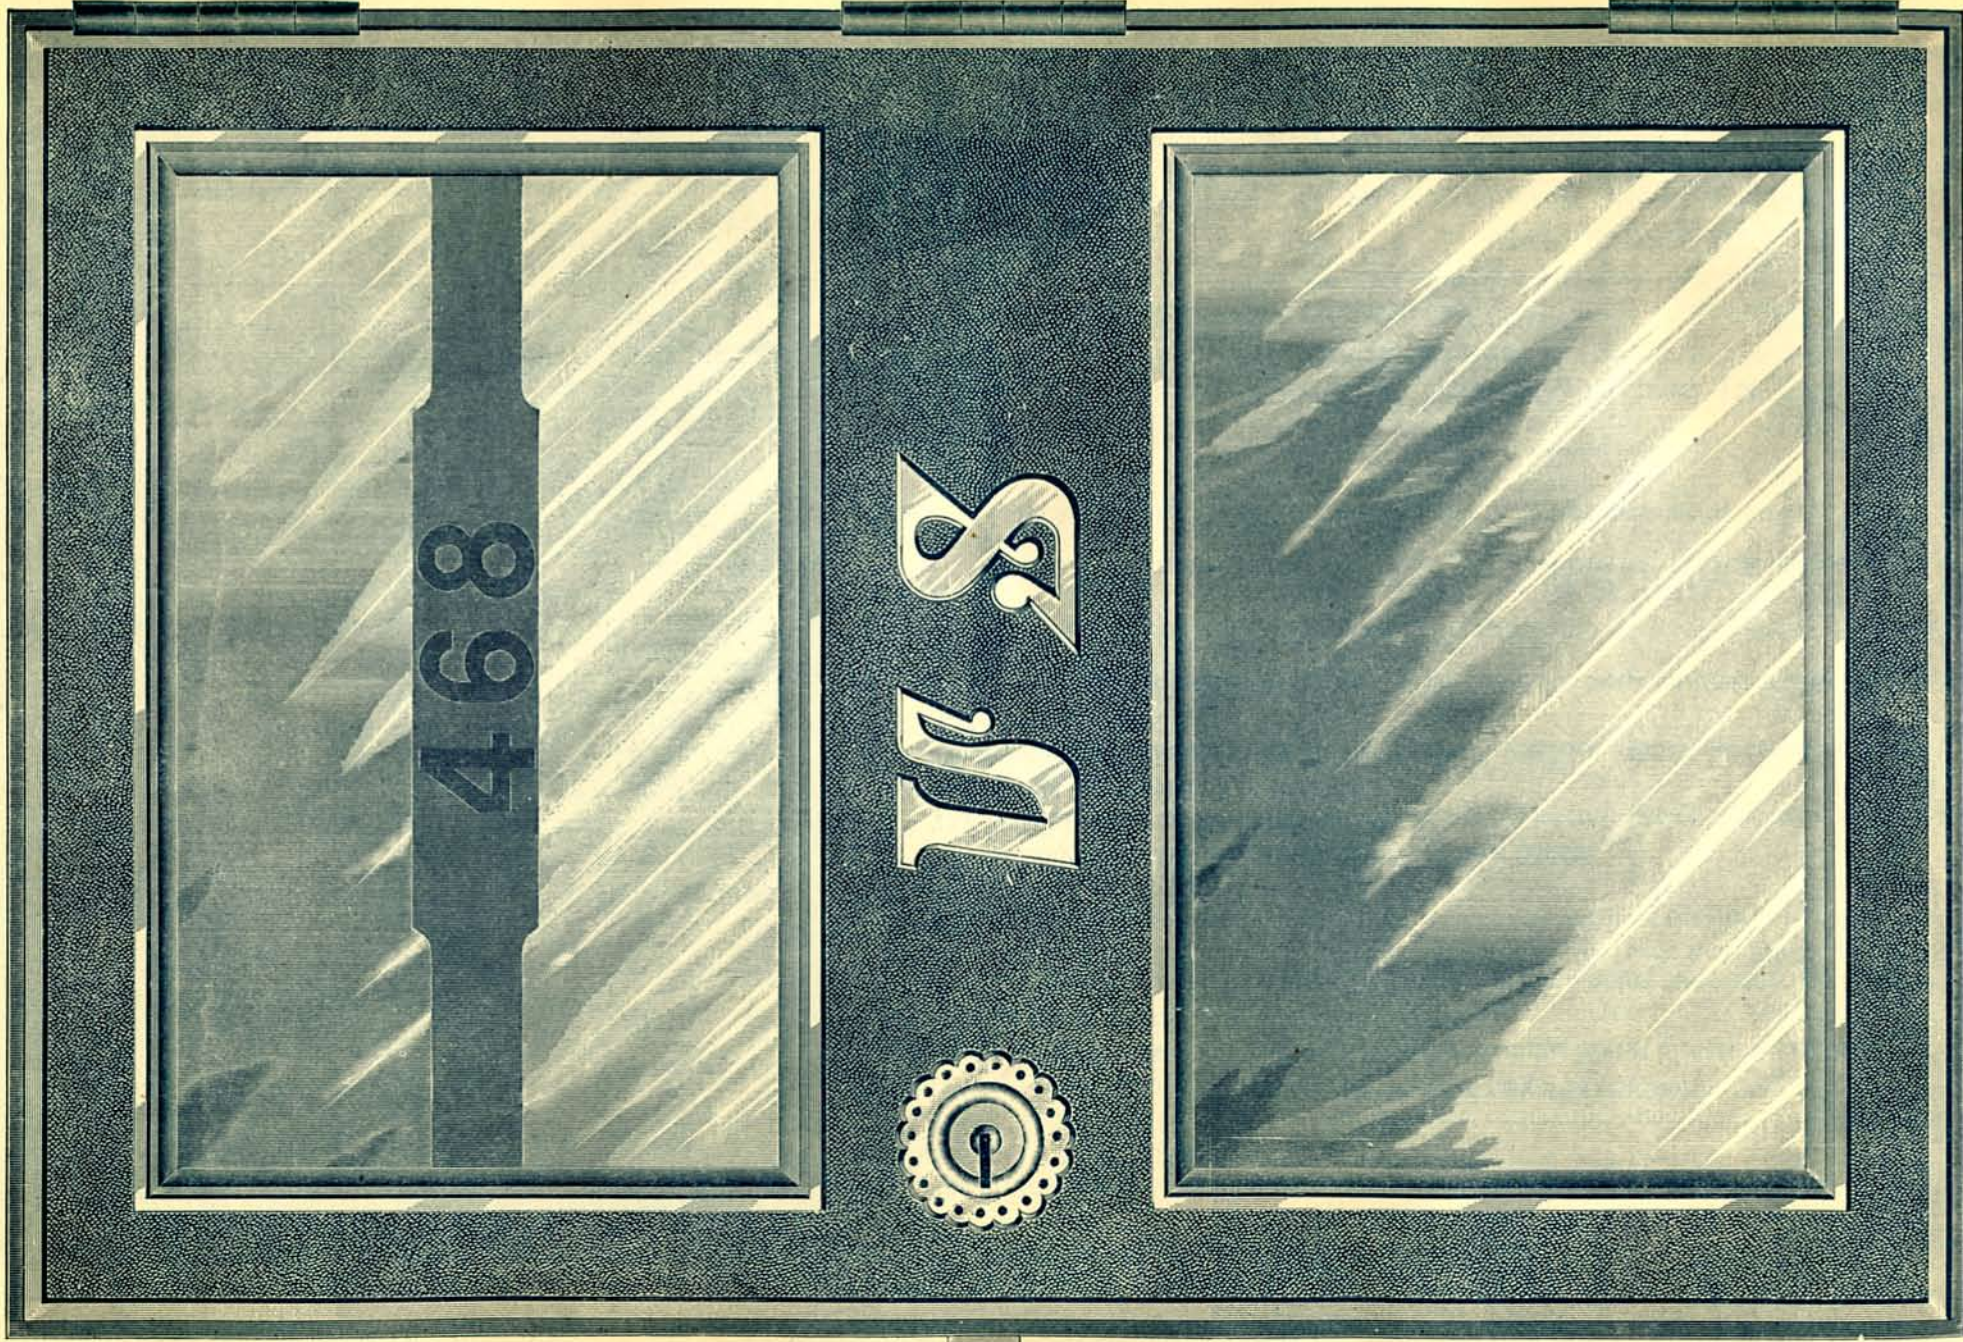

For outside measurement, see page 14.

Above price is for box complete, placed in screen and ready for shipment at New Britain, Conn., and Chicago, Ill.

For arrangement of nesting "Acme" Lock Boxes, see page 14.

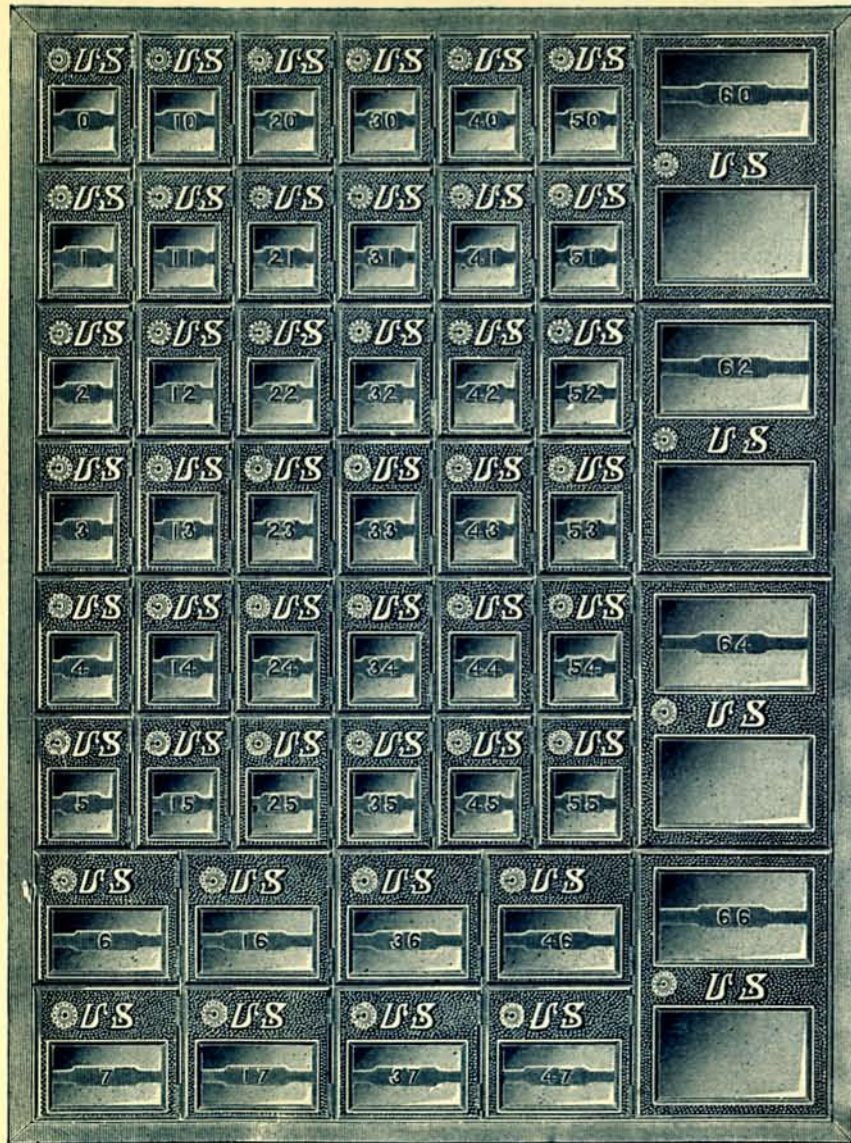

Discounts on Lock Boxes furnished on application.

Extra Keys furnished to Postmasters only by sending number stamped on key.

Full size cut of No. 12 "Acme" Bronze Lock Box. For description and prices see page 14.

"Acme" Bronze-Metal Lock Boxes.

We present a nest containing 36 No. 10 "Acme" Lock Boxes, 8 No. 11 "Acme" Lock Boxes, and 4 No. 12 "Acme" Lock Boxes.

It will be seen that three of the No. 10 Boxes occupy the same width as two No. 11 Boxes, and two of the Nos. 10 or 11 Boxes occupy the same height as one No. 12 Box.

The "Acme" Lock Box **Fronts** are made of **Bronze Metal** of neat design, highly finished and lacquered, and present a handsome appearance.

The **Locks** used are the "**Geneva**" **Bronze Spring Locks**, made especially for Post-office Boxes. No two locks are alike, and will not interchange, and each lock has three flat German silver keys. Locks are so constructed that they can be opened from the inside by Postmaster, and box renter locked out, if desired.

The opening in front is glazed with **Heavy Plate Glass**.

The **Numbers** are **white** letters on a **dark** plate, placed inside of the box in such a manner that they cannot be chipped off or defaced.

The **Boxes** or **Pigeon Holes** are made of well-seasoned whitewood, smoothly finished, and with **wire** or **wood** bottom.

The **Fronts** are securely attached to the hard-wood frames, and present a perfectly smooth surface inside of box.

Inside Dimensions of No. 12 "Acme" Lock Boxes.

No. 12, $6\frac{3}{4}$ inches wide, 10 inches high, 14 inches deep, price, each \$2.50

Outside Measurements of Nos. 10, 11 and 12 "Acme" Lock Boxes.

No. 10, $3\frac{3}{8}$ inches wide,	$5\frac{1}{4}$ inches high,	Price, each \$1.50
No. 11, $5\frac{1}{8}$ " " "	$5\frac{1}{4}$ " " "	" " 1.75
No. 12, $7\frac{1}{4}$ " " "	$10\frac{1}{2}$ " " "	" " 2.50

Above prices are for Boxes complete, placed in screen, f. o. b., New Britain, Conn., and Chicago, Ill.

Discounts on "Acme" Lock Boxes furnished on application.

For prices of Cabinets of "Acme" Lock Boxes, see page 15.

Cabinets of "Acme" Lock Boxes.

These Cabinets are furnished with Base and Cornice, as shown on page 7.

Cabinet No. 650	contains	18	No. 10 boxes,	4	No. 11 boxes,					Cash Price, \$34.00	Installment Price, \$39.50					
"	No. 651	"	36	"	"	8	"	"	4	No. 12 boxes,	"	"	78.00	"	"	90.00
"	No. 652	"	54	"	"	12	"	"	4	"	"	"	112.00	"	"	129.00
"	No. 653	"	72	"	"	16	"	"	8	"	"	"	156.00	"	"	180.00

Discounts furnished on application.

For Estimating Space to be Occupied by "Acme" Lock Boxes.

Height:— Multiply the number of Boxes high by height of each (see page 14) and add 2 inches for roundabout.

Width:— Multiply the number of Boxes wide by width of each (see page 14) and add 2 inches for roundabout.

Thus 100 No. 10 "Acme" Lock Boxes, 10 wide and 10 high, equal $10 \times 3\frac{7}{8} + 2 = 40\frac{3}{4}$ inches wide, and $10 \times 5\frac{1}{4} + 2 = 54\frac{1}{2}$ inches high.

NUMBERING.

The numbering adopted and used on the "Corbin," "Harvard," "Acme," and "Excelsior" Lock Boxes differs from that used on other boxes. Instead of placing the numbers on the inside of the box on the glass, thereby being continually brought in contact with mail matter, resulting in erasing or chipping off the numbers, our numbers are placed on a plate separate from glass and cannot be reached by mail matter. We furnish black numbers on a silvered plate, or white numbers on a black plate, either of which presents a handsome appearance and can be readily seen.

All Cabinets and Outfits, unless otherwise ordered, will be numbered in the following manner: Commencing at the upper left-hand corner with No. 1, the second tier No. 11, the third tier No. 21, etc., the second horizontal row being numbered 2, 12, 22, etc. If the boxes are but eight rows high, the numbers 9, 19, 29, etc., and 10, 20, 30, etc., are omitted.

No. 15 "Excelsior" Bronze-Metal Lock Boxes.

These **Fronts** are made of **Bronze Metal**, nicely finished and lacquered.

The **Locks** used are the "Geneva" Spring Bronze Lock, made especially for post-office work. Each lock has three German silver keys. Each lock is made of different change from every other lock. Locks cannot be picked or get out of order, and are so constructed that they can be opened from the inside by the Postmaster. The box renter can also be locked out from inside of office.

Heavy Plate Glass is used for the opening in the front. The opening being large, the contents of box is readily seen.

Numbers are plain **white** figures on a **black** plate, placed inside the box in such a manner that they cannot be chipped off or defaced.

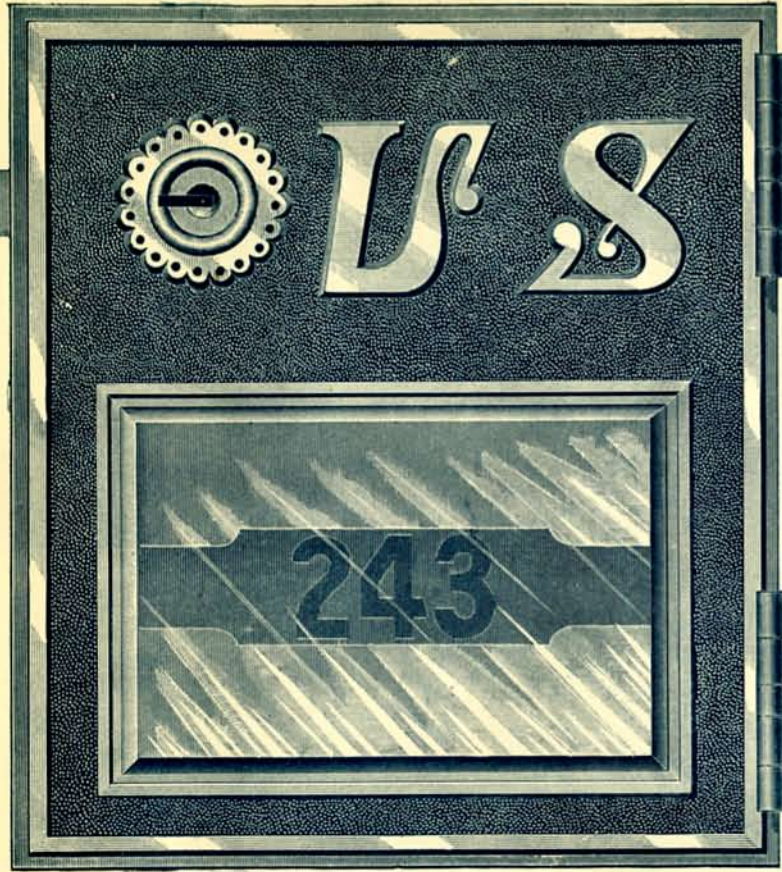

Boxes are made with Wire or Wood Bottoms, and the front is securely attached to the hard wood frame. Each Box is provided with Brass Name Clip and blank card for name of box renter.

Inside measurement of box, $3\frac{7}{8}$ inches wide, $4\frac{3}{8}$ inches high, 9 inches deep, price, \$1.50 each.

Outside measurement of box, $4\frac{3}{8}$ inches wide, 5 inches high.

Above price includes numbering and name clip, and is for box complete, placed in screen and ready for shipment at New Britain, Conn., and Chicago, Ill.

Discounts furnished on application.

Full size cut of No. 15 "Excelsior" Bronze Lock Box.

Cut of Key used in "Excelsior" Lock Boxes.

No. 15 "Excelsior" Bronze-Metal Lock Boxes.

The No. 15 Lock Boxes were made especially for use in Cabinets, and are so constructed as to occupy equal space and nest with Call Boxes in Cabinets shown in following pages.

In height Nos. 15 and 20 Lock Boxes are same as No. 25, but in width Nos. 15 and 20 Lock Boxes are $\frac{7}{8}$ inch wider than No. 25.

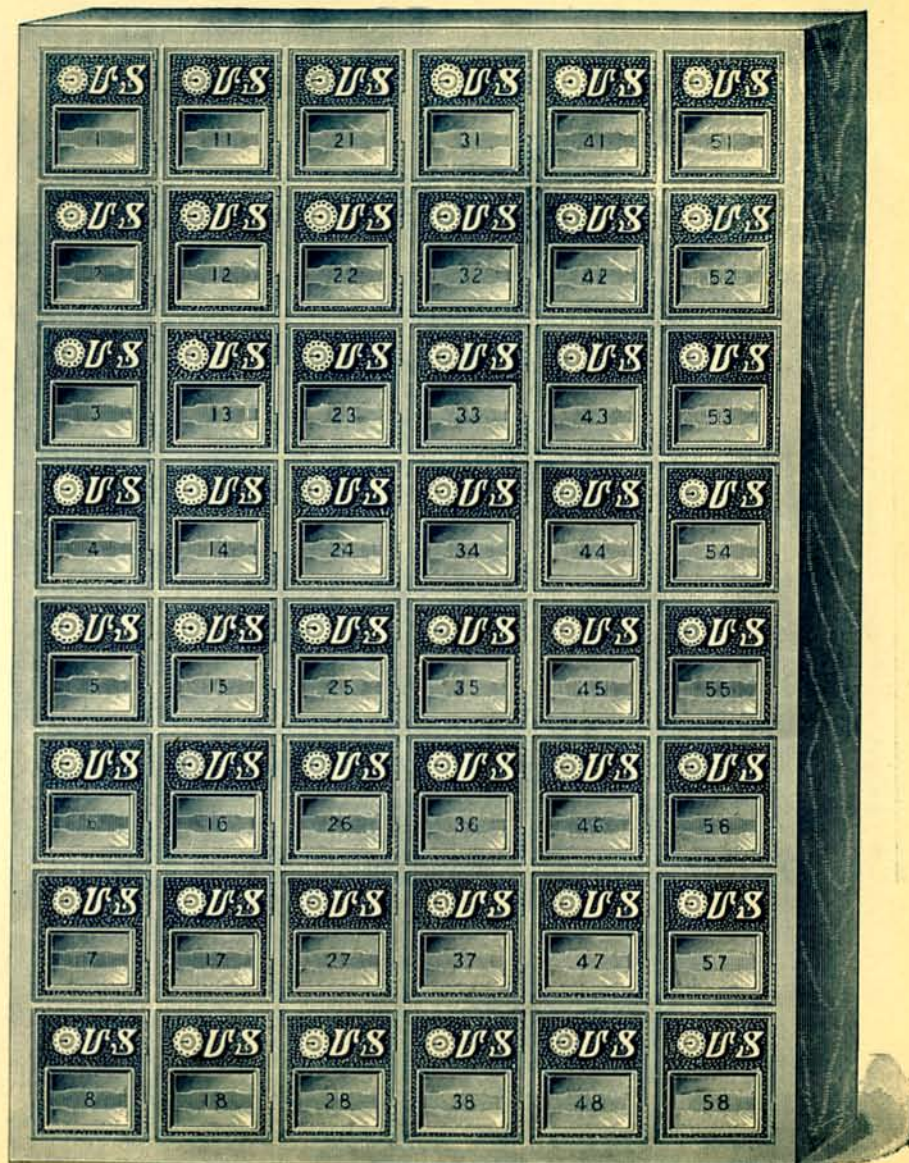

In Estimating Space to be occupied by No. 15 Lock Boxes.

Height:—Multiply the number of Boxes high by height of each (5 inches) and add 2 inches for roundabout.

Width:—Multiply the number of Boxes wide by width of each ($4\frac{3}{8}$ inches) and add 2 inches for roundabout.

Section of No. 15 Excelsior Lock Boxes.

Sections of No. 15 Lock Boxes containing 7, 8, 14, 16, 21, 24, 28, and 32 Boxes are kept in stock ready for immediate shipment.

Wood-Front Lock Boxes.

Our new **Wood-Front Lock Boxes** have won for themselves a high reputation for convenience and security, beauty of design, and ornamental appearance. The **Fronts** are made and finished in the best possible manner of black walnut, or other hard wood, with glass in the center to admit light and allow the contents of the box to be readily seen. The boxes are numbered on the inside of the glass with an oil number, gold shaded with red, which gives the best effect. The **Locks** are the "**Geneva**" **Bronze Spring Locks** which are made especially for Post-Office boxes. The strong point about these locks is that they cannot be picked, cannot get out of order, and each lock is of a different change from any other lock. The **Keys** are made of German silver and will not rust. Three Keys are sent with each box. **Locks** are so constructed that the doors can be opened from inside of the office by Postmaster. Boxes supplied with **Wire** or **Wood** bottom as desired.

Full size cut of No. 20 Wood-Front Lock Box.

Cut of Key used in Wood-Front Lock Boxes.

Inside Dimensions of Wood-Front Lock Boxes.

No. 20,	3 $\frac{3}{8}$ inches wide,	4 $\frac{3}{8}$ inches high,	9 inches deep,	Cash Price, \$1.00.	Installment Price, \$1.10
No. 21,	3 $\frac{3}{8}$ " " 5 " " 9 " "	" " 1.00.	" " 1.10		
No. 22,	4 $\frac{1}{4}$ " " 5 $\frac{1}{2}$ " " 10 " "	" " 1.00.	" " 1.10		
No. 23,	9 $\frac{1}{8}$ " " 6 " " 10 " "	" " 1.50.	" " 1.65		

Outside Measurements of Wood-Front Lock Boxes.

No. 20,	4 $\frac{3}{8}$ inches wide,	5 inches high,
No. 21,	4 $\frac{3}{8}$ " " 5 $\frac{5}{8}$ " "
No. 22,	4 $\frac{3}{4}$ " " 6 " "
No. 23,	10 " " 6 $\frac{1}{2}$ " "

In estimating space to be occupied by **Wood-Front Lock-Boxes**: **Width**, multiply the number of boxes wide by width of each and add 2 inches for roundabout. **Height**, multiply number of boxes high by height of each and add 2 inches for roundabout.

Prices given are for Lock Boxes complete, including brass name clips and numbering, boxed and delivered on cars at New Britain, Conn., and Chicago, Ill.

Extra Keys furnished to Postmasters only by sending number stamped on Key,

Wood-Front Lock Boxes.

Full size cut of No. 21 Wood-Front Lock Box.

For Description and Price List of Wood-Front Lock Boxes, see page 18.

Fronts are made of solid black walnut unless otherwise ordered.

Each Lock has three German silver keys.

Boxes kept constantly in stock.

Extra Keys furnished to Postmasters only by sending number stamped on key.

Full size cut of No. 22 Wood-Front Lock Box.

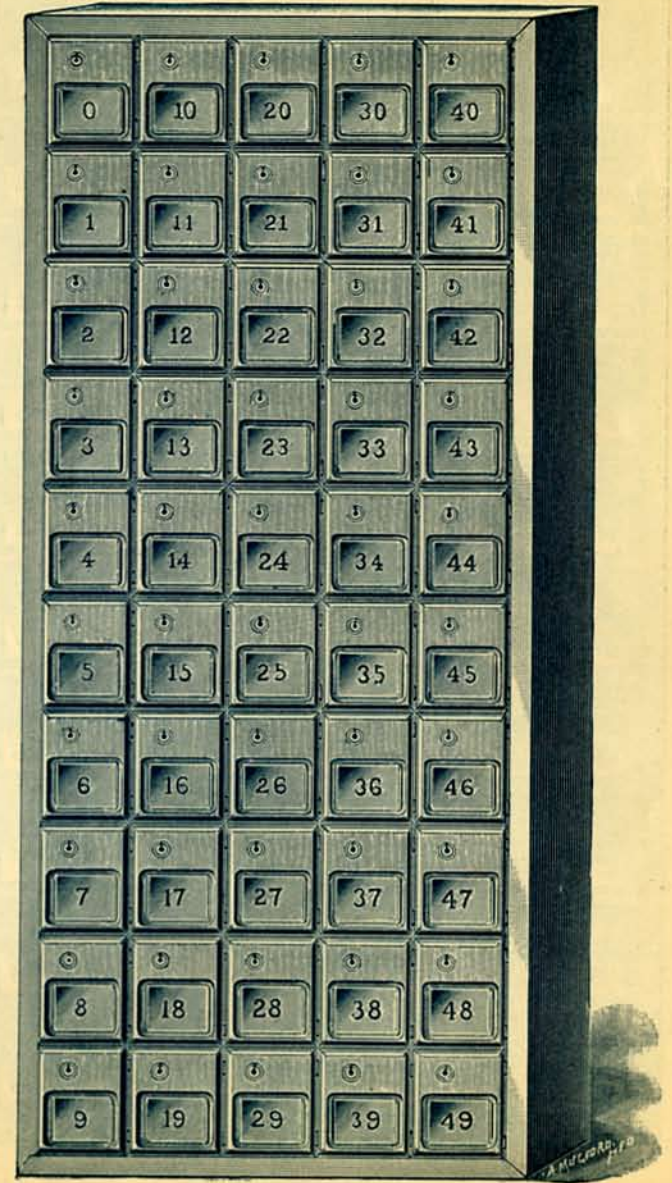

Wood-Front Lock Boxes.

Full size cut No. 23 Wood-Front Lock Box.

For prices and measurements No. 23 Lock Box, made either Box or Drawer, see page 18.

Wood-Front Lock Boxes.

For description and prices, see page 18.

Wood-Front Lock Boxes.

Wood-Front Lock Boxes are carried in stock, made in sections of 7, 8, 14, 16, 21, 24, 28 and 32 Boxes, and can be shipped immediately on receipt of order.

The **No. 20 Lock Box** is same height as our regular **Call Box (No. 25)**, and the Cabinets and outfits illustrated on the following pages show No. 20 Lock Boxes used in connection with No. 25 Call Boxes.

Lock Boxes Nos. 1, 5, 15 and 20 can be placed in Cabinets and outfits, and occupy the same height as No. 25 Call Box.

All Locks used in Lock Boxes are so constructed that the keys will not interchange.

“Corbin” Wire-Bottomed Call Boxes.

We furnish Wire-Bottomed Call Boxes made in three sizes, Nos. 25, 26, and 27. These boxes are made of well-seasoned and selected wood, and the bottom of brass wire, which prevents an accumulation of dust. The numbers are securely fastened in front of box independent of glass, so that in case glass should be broken, the numbers would not have to be replaced.

At the rear of each box are the brass number clips fastened to end of box, numbered to correspond with box and provided with space to insert name of box renter, and with card board blank for name. These brass name clips are furnished without extra charge.

Call Box No. 25.	Inside dimensions, 3 inches wide, 5 inches high, 8 inches deep,	per Box, 16 cents.	With Ash Sash and Glass, per box, 20 cents.
“ “ 26.	“ “ 3½ “ “ 5 “ “ 8 “ “	“ “ 19 “	“ “ “ “ 23 “
“ “ 27.	“ “ 4 “ “ 5 “ “ 8 “ “	“ “ 21 “	“ “ “ “ 25 “

Above prices for Boxes include cases and delivery on cars at New Britain, Conn., or Chicago, Ill.

The outside dimensions of a section of No. 25 Call Boxes, ten boxes high and ten wide, are 52 inches high and 34½ inches wide.
 “ “ “ “ “ “ “ 27 “ “ “ “ “ 52 “ 44½ “

When ordered with ash sash and glass, the price given includes best quality double thick French glass, and bronze numbers, all complete.

The most convenient arrangement of boxes is in nests not over ten boxes high, and nests should not exceed thirty boxes in width.

The space occupied by Call Boxes may be estimated as follows:

Height:— Multiply number of Boxes in height by 5 inches, and add 2 inches for frame.

Width:— Multiply number of boxes in width by 3½ inches for No. 25, 3⅔ inches for No. 26, and 4⅙ inches for No. 27, and add 2 inches for frame.

"Corbin" Complete Post-Office Cabinets.

On the following pages we present a large number of **Cabinets**. In addition to illustrations shown, we give on page 25 **Numbers, Measurements, and Prices** of other Cabinets. These Cabinets are designed to meet the wants of Postmasters wishing complete offices, and each Cabinet is complete and ready for business, without any expense for extras.

We are prepared to furnish Cabinets containing Boxes, 6, 7, 8, 9, and 10 Boxes high. The number of **Alphabetical Boxes** in every Cabinet is six times the number of **Call Boxes** in one vertical column, these giving more Alphabetical Boxes than other Cabinets. In addition to Alphabetical Boxes, there are extra **Pigeon Holes** extending the entire length of Cabinet over the boxes and delivery window. This feature is not embraced in other Cabinets.

Cabinets Nos. 26, 27, 28, 29, and 210 are made same as cuts shown on pages 28 to 30. **All other Cabinets** are made with **Panels** as described on page 31. These **Panels** may be removed and at each end of **Cabinet** three vertical columns of **Call Boxes** or two vertical columns of **Lock Boxes** may be inserted. In this way the capacity of office may be increased without compelling Postmaster to purchase new Cabinet. No. 38 Cabinet as described on page 31 contains **48 Call Boxes**, 48 Alphabetical Boxes, and 9 **Extra Pigeon Holes**, and with **Panels** at each end. Removing **Panels** and inserting **Call Boxes**, gives a **Cabinet** containing 96 **Call Boxes**, 48 **Alphabetical Boxes**, and 9 **Extra Pigeon Holes**, or using **Lock Boxes**, Cabinet will contain 48 **Call Boxes**, 32 **Lock Boxes**, 48 **Alphabetical Boxes**, and 9 **Extra Pigeon Holes**.

When so ordered, **Cabinets** will be furnished **without Panels** (see page 32), **without Base**, or **without Corners**.

The **Call Boxes** (No. 25) used in Cabinets are made with **Wire Bottom**. **Lock Boxes** Nos. 1, 5, 15, and 20, are so constructed as to occupy the same height as **Call Boxes** and present a handsome appearance.

Lock Boxes Nos. 15 and 20 are made regularly with Wood Bottoms but are furnished with Wire Bottoms, when so ordered.

Cabinets are carried in stock at New Britain, Conn. and Lake Geneva, Wis. Sample Cabinets may be seen at our New York, Chicago, and San Francisco Warehouses.

For General Description of conveniences of Cabinets, see pages 27 and 31.

For explanation of Cash and Installment Prices, see page 2.

All Cabinets excepting Nos. 26, 27, 28, 29, 36, and 210 are made with space at each end covered with panels. These panels may be removed, and six vertical columns of Call Boxes or four vertical columns of Lock Boxes may be inserted. This increases capacity of office without compelling Postmaster to purchase new Cabinet.

NUMBERING CABINETS.

Our system of numbering Cabinets consists in having the terminal figure or figures represent the number of boxes in a vertical column, and the preceding figure or figures designate the number of columns on one side of wicket. These numbers multiplied will give number of boxes on one side of wicket, and multiplied by two, the number of boxes in Cabinet.

ILLUSTRATION:—No. 38 Cabinet consists of 3 vertical columns of eight boxes in a column, equals $24 \times 2 = 48$ Boxes in Cabinet. No. 149 Cabinet consists of $14 \times 9 \times 2 = 252$ Boxes in cabinet. No. 1210 Cabinet consists of $12 \times 10 \times 2 = 240$ Boxes in Cabinet.

For any of above Cabinets with Lock Boxes, add for No. 1 Box, \$2.75 each; No. 5 Box, \$2.75 each; No. 15 Box, \$1.50 each; No. 20 Box, \$1.00 each.

"Corbin" Complete Post-Office Cabinets.

DESCRIPTION OF CABINETS.

The **Wood-work** for fronts, cornice, sashes and base is of best quality American Ash, nicely finished, and the **Boxes** are made of well-seasoned Whitewood.

The **Call Boxes** are made with **Wire Bottoms**, which prevent an accumulation of dust, and present a light and attractive appearance.

The **Sashes** are constructed of Ash, finely finished and varnished, glazed with double thick clear French glass, and boxes can easily be removed when necessary to clean glass on the inside.

The **Numbers** are attached to boxes independent of the glass, and the rear end of each box is provided with brass name clip and cardboard blank for box renter's name.

General Delivery Boxes, made with **Wire Bottoms**, for letters and papers, are placed in all Cabinets, and are located in the rear of panel work, each side of delivery window. These Boxes are alphabetically arranged in the vowel plan.

Extra Boxes or **Pigeon Holes** are provided, extending the entire length of Cabinet over the Call and General Delivery Boxes, for envelopes, cards, wrappers, notes, advice, etc., etc.

The **Delivery Wicket** is nicely made and well finished, and is provided with a deep shelf projecting both in front and rear of Cabinet. A heavy brass **Guard** or **Screen** is securely fastened to inside of wicket in front of doors. The doors are made of ash, close from the rear, and are secured from the inside.

A **Cash** and **Stamp Drawer** placed under the delivery wicket is suitably divided for cash and stamps, and is provided with a "Corbin" secure lever flat-keyed lock with two nickel-plated flat steel keys. The drawer is fitted with sliding coin cups.

A **Letter Drop** of solid bronze metal in fancy design is supplied with each Cabinet. A Box for receiving mail is placed under the delivery wicket.

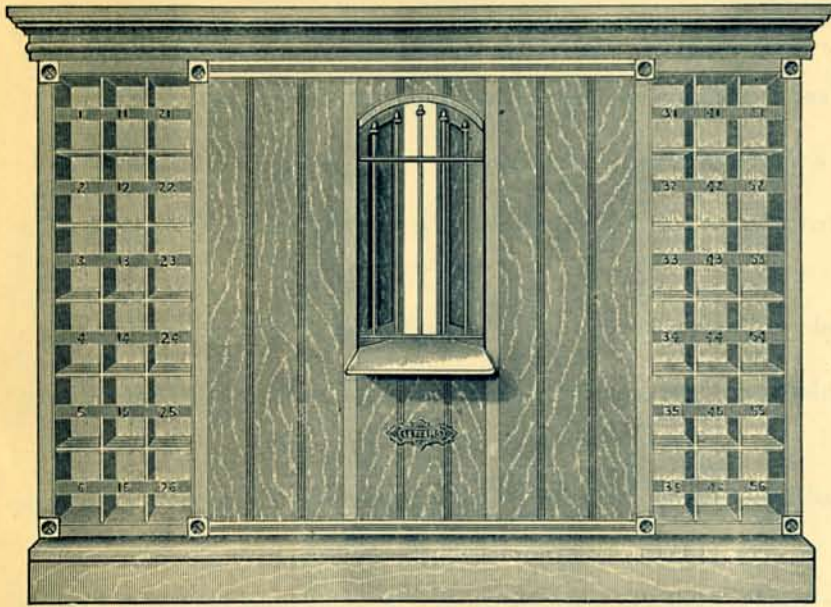

Lock Boxes Nos. 1, 5, 15 and 20 can be furnished with any of these Cabinets; the arrangement and sizes allowing them to be added at any time.

Special Cabinets will be furnished when ordered, and plans and estimates will be furnished on application.

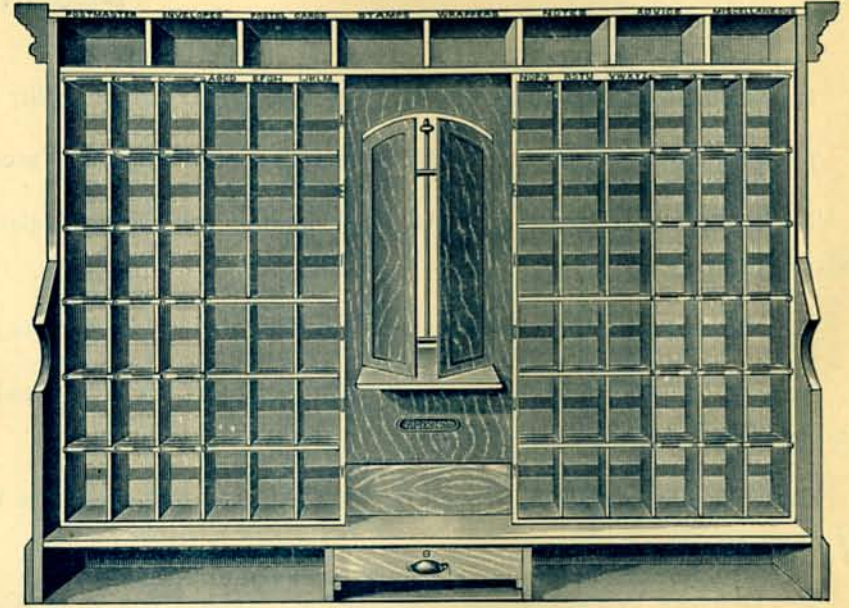

Cabinets are carried in stock at New Britain, Conn., and Lake Geneva, Wis. Sample Cabinets may be seen at our New York, Chicago and San Francisco warehouses.

Complete Catalogue of Post-office Equipments, Furniture and Supplies mailed on application.

“Corbin” Post-Office Cabinets.

Front View of No. 36 Cabinet.

"Corbin" Post-Office Cabinets.

Front view of No. 38 Cabinet.

Rear view of No. 38 Cabinet.

All Cabinets containing 42 or more Call Boxes will be furnished with Panels (as above), unless otherwise ordered.

The conveniences illustrated in above cuts are furnished with Cabinets Nos. 37 to 1310 inclusive (excepting No. 210).

The general description of Cabinets on pages 24 and 27, for Cabinets Nos. 26, 27, 28, 29, 36, and 210, applies also to Cabinets Nos. 37 to 1310, but Cabinets Nos. 37 to 1310 possess this advantage: That the capacity of the office may be increased without purchasing new Cabinets.

The Panels are easily removed, and a section of three vertical columns of Call Boxes, or two vertical columns of Lock Boxes, may be inserted in the space occupied by each panel. These panels are made of ash, and conform in style and finish to other wood work of Cabinet.

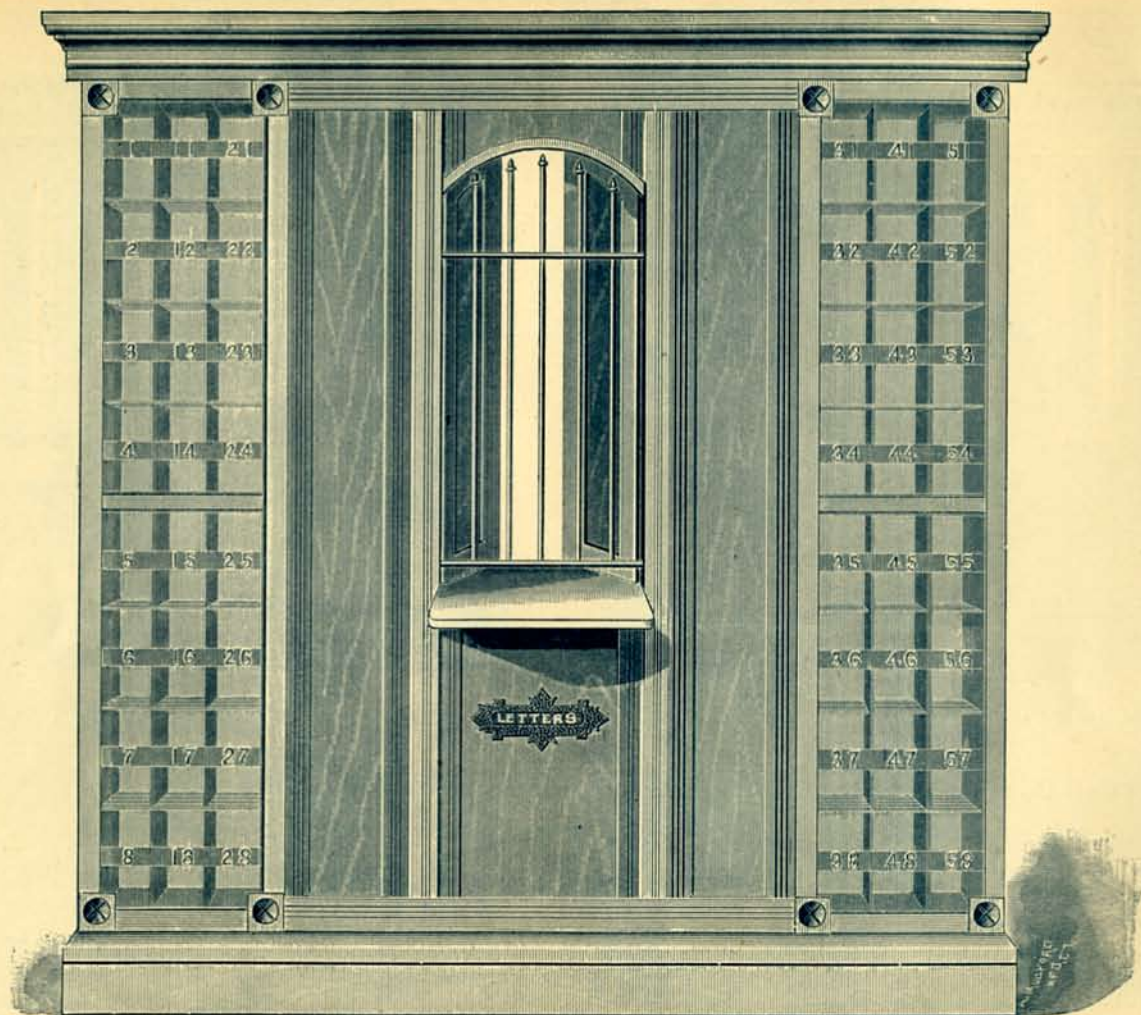

Lock Boxes Nos. 1, 5, 15, and 20, made in sections of one or two vertical columns, can be shipped on receipt of order.

For prices of Cabinets on Cash and Installment plan, see page 25.

For prices of Cabinets with Lock Boxes Nos. 1, 5, 15, and 20, see page 26.

Cabinets when so ordered will be furnished without Panels, Base, or Cornice.

"Corbin" Post-Office Cabinets.
