

No. 12.

POST-OFFICE
EQUIPMENTS,

MANUFACTURED BY

JOHN MCLANE,

205 Lake Street, Chicago, Ill., AND Milford, N. H.

NOTICE TO WESTERN POSTMASTERS.

The great and growing demand for my **NEW MODEL CABINETS** and complete **POST-OFFICE OUTFITS** has made a Western Branch Office necessary; consequently I have established at

205 LAKE STREET, CHICAGO, ILL.,

Western headquarters for Postmasters' supplies, where everything required to fit up an office complete will be furnished at a very low price and in the shortest possible time.

Drawings for special cabinets, also plans, specifications and drawings for complete outfits, with estimates of cost delivered at your railroad station, furnished free on application.

Address JOHN McLANE, Milford, N. H., or 205 Lake Street, CHICAGO, ILL.

TO POSTMASTERS.

My Patent Wire-Bottomed Boxes are manufactured under the original patent granted to Mr. H. G. Piersons, the present postmaster at New York City.

Important improvements that I have made in the construction, and the numerous patents which have already been granted, enables me to make the most perfect post-office box ever put upon the market.

Dust-Pockets are furnished with all my boxes, and are a patented feature and a great improvement, which no other post-office box is supplied with. They are furnished at no extra cost to my customers.

Attention is called to the complete line of Lock Boxes, both in WALNUT and solid BRONZE fronts, which I manufacture, and they have proved themselves to be the best in the market.

Name-Holders are furnished with all of my boxes, and cards on which to write the name of box-renters. See cut of box on page 28.

Over Five Thousand offices are using my patent **Wire-Bottomed, Dust-Proof Box**, and they never fail to give the most perfect satisfaction.

Address all correspondence to

JOHN MCLANE,
MILFORD, N. H., or 205 LAKE ST., CHICAGO, ILL.

SALARIES OF POSTMASTERS.

IN all offices of less than \$1,000 salaries, the box-rent is all retained by the postmaster. See Section 117 of the Postal Laws and Regulations. And all postmasters, except of the *first-class*, are directly benefited by increasing their box-rents.

In many offices the rules of the department are violated, by neglecting to collect rent for boxes, and allowing the box-holder to have the use of the box free; it is also customary, in many places, to put the mail for whole neighborhoods in one box. Where this has been practiced, it is impossible to rent boxes. Congress has passed laws to regulate it; but it is very difficult to make any change where the boxes have been used for a long time, and a great many postmasters have found that by far the easiest way to do it was to throw the old boxes away, and put in new ones.

To assist postmasters in this, and make it more easy to make such change, I have had printed a neat placard, giving Sections 300, 301 and 302 of Postal Laws and Regulations, which are as follows:

SECTION 300.—*Rent of boxes to be prepaid.*—No box at any post-office shall be assigned to the use of any person, until the rent thereof has been paid for, at least one quarter in advance, for which the postmaster shall give a receipt. (R. S., § 3901.)

SECTION 301.—*Payment for boxes must be quarterly.*—Postmasters must rent the boxes and drawers in their post-offices, for one quarter (three months) only, the money to be paid in advance. The department will insist upon a strict compliance with this regulation. Boxes remaining unpaid for ten days from the expiration of a quarter will be declared vacated.

SECTION 302.—*Box to be restricted to use of one family.*—A person renting a post-office box is entitled to have the letters of his family put into it. Each box must be restricted to the use of one family, firm or corporation.

These rules will be furnished to any of my customers, and will be found very useful in calling the attention of the public to the matter of renting boxes. The Government pays postmasters large salaries, and expects them to furnish their patrons with some conveniences, and the public very quickly and gratefully notice anything that is done by the postmaster for them. There is no way in which this can be accomplished better than by putting in an outfit of the wire-bottom post-office boxes.

“NEW MODEL” POST-OFFICE CABINETS.

Y “New Model” Cabinets are designed to meet the wants of those progressive postmasters who desire the most perfect post-office outfit ever offered for small offices. These designs are the result of long experience and a careful study of the requirements of fourth-class offices, and they are now shown with great confidence that they will sustain the high reputation that my Post-Office cabinets have always held in the public estimation.

I wish to call your especial attention to a few facts about these cabinets: 1st. That the workmanship on them is good. 2d. The material used for the boxes is whitewood, smoothly finished. 3d. The sash, delivery wicket, panel-work, and cornice are solid pearl Ash, and highly finished. Work made of these materials has a much handsomer appearance than can be obtained by using the cheaper grades of lumber.

DESCRIPTION OF THE “NEW MODEL” CABINETS.

CALL BOXES are all made with my patent Wire Bottoms, which are conceded to be the best post-office box ever made.

GENERAL-DELIVERY BOXES for letters and papers are placed in all of these cabinets. They are situated on each side of the delivery wicket, and covered with pearl Ash panels (as shown in the cuts). Those on the right are for letters, and those on the left are for papers; and each box is properly lettered.

EXTRA BOXES.—Over the delivery wicket there are some extra boxes, which are very convenient for envelopes, postal cards, etc.

CASH AND STAMP DRAWER.—Each cabinet is supplied with a drawer suitably divided for cash and stamps, secured by a Sargent & Greenleaf lock, and fitted with sliding coin cups.

DELIVERY WICKET.—Each cabinet is provided with a delivery wicket made of solid pearl Ash, double doors, a large, handsome shelf, and brass guards.

SASH.—The sashes are all made of solid pearl Ash, and are attached to the boxes by means of hooks, and can be removed to clean the glass without any trouble whatever. They are glazed with the best quality double-thick French glass.

NUMBERING.—Each call box is numbered with a handsome bronze number.

NAME-CLIPS.—Each box is furnished with a name-holder attached to the back of the box, and provided with cards on which to write the name of the box-renter.

BRONZE LETTER-DROP.—Each cabinet is provided with a copal bronze letter plate, which is conveniently placed under the shelf of the delivery wicket.

LOCK BOXES can be furnished with any of these cabinets, and can be arranged in vertical rows at the side, or in horizontal rows at the bottom. Lock-boxes add much to the appearance of an office, and are sure to rent; the low price, only \$1.25 each, places them within the reach of all. They rent for 50 cents per quarter, and pay for themselves in eight months. They save time and trouble in delivering the mails.

SPECIAL CABINETS can be made to order at short notice, and at a small advance upon the regular size cabinet.

PROMPTNESS.—These cabinets are kept in stock at my factories at Milford, N. H., and Chicago, Ill., and can be shipped at once upon receipt of order.

NEW MODEL CABINET No. 12.

THIS CABINET contains 42 call boxes and 33 general-delivery boxes for letters and papers, with wire bottoms and dust-pocket.

EXTRA BOXES over the delivery wicket for postal cards, envelopes, etc.

DELIVERY WICKET with Ash doors, brass guards and copal bronze letter-drop.

Post-Office Plan No. 5. For description and price, see page 20.

POST-OFFICE PLAN No. 2.

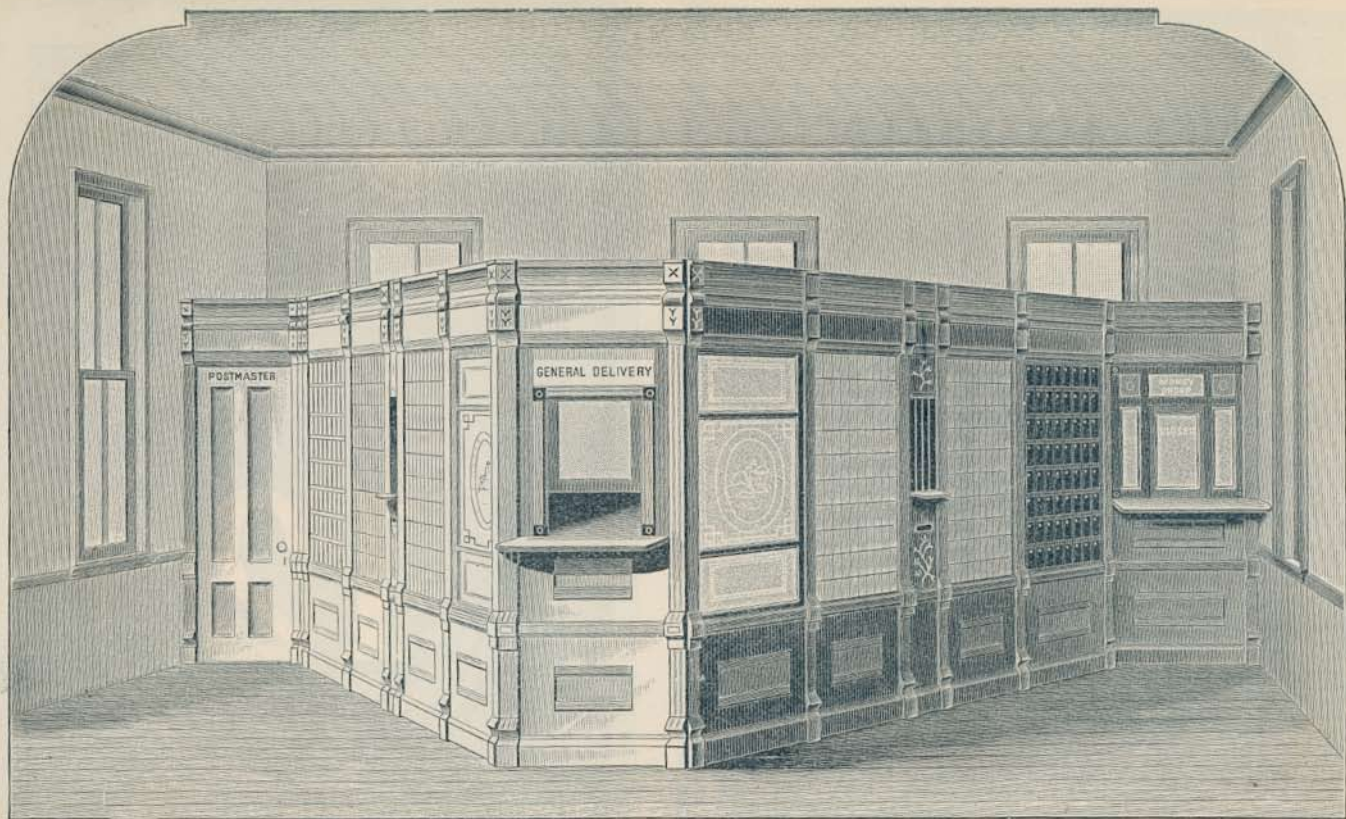

On the opposite page is shown an illustration of my No. 2 Style of an office, and is adapted to rooms from 16 to 30 feet in width.

The general-delivery window is in front; over it is the sign, in solid bronze, "General Delivery," and underneath the shelf, on the inside, is provided a case of drawers, suitably divided for stamps, cash, etc. Each drawer is secured by a Sargent & Greenleaf patent spring lock, with two keys. Each side of the window are the alphabetical cases, glazed, with obscure glass and the device "Postal Seal." Back of the cases on each side are 200 call-boxes, with a delivery wicket in the center; and farther back on each side are nests of 64 lock-boxes each, and at the right is the money-order window and counter for the transaction of money-order and registered-letter business, appropriately ornamented with obscure glass and blue monograms. Underneath the shelf is a cupboard. At the left is the postmaster's door, with a solid bronze plate over it.

I also provide an extra shelf underneath the counter-top for matter that accumulates in an office. When this outfit is set in position it is complete, *ready for the transaction of business.*

I construct my joiner-work in solid ash, of Queen Anne style, and finely finished.

Plan furnished free of cost for any capacity you may require. Send for Estimate.

Post-Office Plan No. 2. (For description, see page 22.)

THE
"MILFORD"
LOCK BOX.

The accompanying cut is the actual size of the No. 1 "Milford" Lock Box, of which three sizes are made. The large glass circle in the front gives ample light, and, as there is no obstruction, the glass can be kept clear and free from dirt, so that the contents of a box can be seen at a glance. The numbers are very handsome, gold, shaded with red. Each box has a Sargent & Greenleaf bronze lock, with three keys each. These keys will not break, rust, or interchange. This is the only low-priced lock box which is furnished with a high-priced lock, having three keys each.

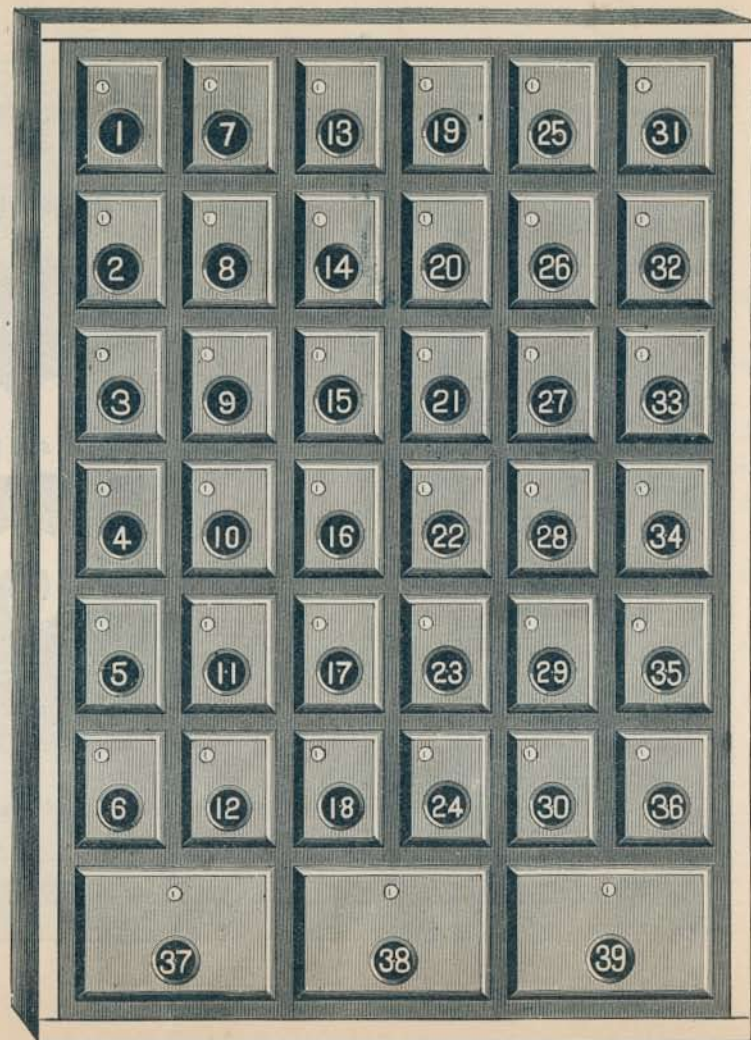

Price, \$1.25.

SECTION OF "MILFORD" LOCK BOXES.

This cut represents a section of 36 small and 3 large "Milford" Lock Boxes.

NO.	INSIDE DIMENSIONS OF LOCK BOXES.			PRICE EACH.
	WIDTH.	HEIGHT.	DEPTH.

2	4¼ inches.	5½ in. high.	10 inches.	1.25
3	5 inches.	6 in. high.	10 inches.	1.25
4	9½ inches.	6 in. high.	10 inches.	2.00

THE NEW "CHICAGO" LOCK-BOX.

YONGE Lock Box is made of the very best material used in the construction of post-office boxes, and it combines all the desirable qualities to be found in any box, and is offered at a price that defies competition, when quality of material, durability of the lock, and style of finish are taken into consideration.

THE FRONTS are made of solid black waturf, which time and experience prove to be the best for the purpose. They are very handsomely engraved, as shown in the cut, and present a very fine appearance.

THE LOCK used is a Sargent & Greenleaf bronze spring lock; this is the only low-priced lock-box that has a good spring lock. The lock is so made that the doors can be opened by the postmaster from the inside of the office; a box-renter can be locked out also from the inside. Each lock has *drei* German silver keys. This is very desirable, as it enables the postmaster to give the renter two and save one back, to be sold when one is lost.

THIS LOCK-BOX is large and roomy. Don't make the common mistake, and get your boxes too small. The inside measure of the "Chicago" is $4\frac{1}{2}$ inches wide, 5 $\frac{1}{2}$ inches high, and 10 inches deep. I make these lock-boxes in sections, usually 7 or 8 boxes high, but will nest them to suit parties.

THE "HARVARD" REAL BRONZE LOCK BOX FRONTS.

AFTER many years of careful study, and as a result of much experimenting, I have now perfected a Lock Box that leads them All; for beauty of finish and quality of workmanship it is unsurpassed.

THE MATERIAL USED in these fronts is a very fine quality of Bronze metal, which will hold its color and not tarnish.

THE LOCKS are the celebrated Sargent & Greenleaf Bronze Lock, 3 flat German silver keys to each lock. These Locks are made especially for this Box, and are WARRANTED NEVER to get out of order. Bear this in mind when looking for Post-Office Boxes—for the market is full of locks that are ALWAYS out of order. No two of these Locks are alike, so keys will not interchange.

PLATE GLASS is used for the glass panel in the front, on which the numbers are painted; this gives a very rich and handsome appearance to the office.

THE BOXES are made of Whitewood for the sides, and the bottoms are made in the same manner as my celebrated Wire-bottom Call Boxes. This is a feature of these Lock Boxes which no other box possesses, and is alone enough to make it the most popular box used.

DUST POCKETS.—All of my Lock Boxes are furnished with my Patent Dust Pocket (patented April 12, 1887), which keeps ALL the Boxes free from dust, and is of great value to any postmaster who desires to keep a neat and clean post-office.

See cut on page 28.

PRICE-LIST OF "HARVARD" LOCK BOXES.

No.	INSIDE DIMENSIONS OF BOXES.			PRICE EACH.
	WIDTH.	HEIGHT.	DEPTH.	
1 Lock-Box,	3 3-8 n.	5 n.	10 in.	\$2.50
2 Lock-Box,	5 1-4 in.	5 in.	10 in.	2.75
3 Lock-Box,	6 3-4 in.	10 in.	14 in.	3.25

Quantity discounts on orders for 50 or more boxes, 10 per cent. from above list.

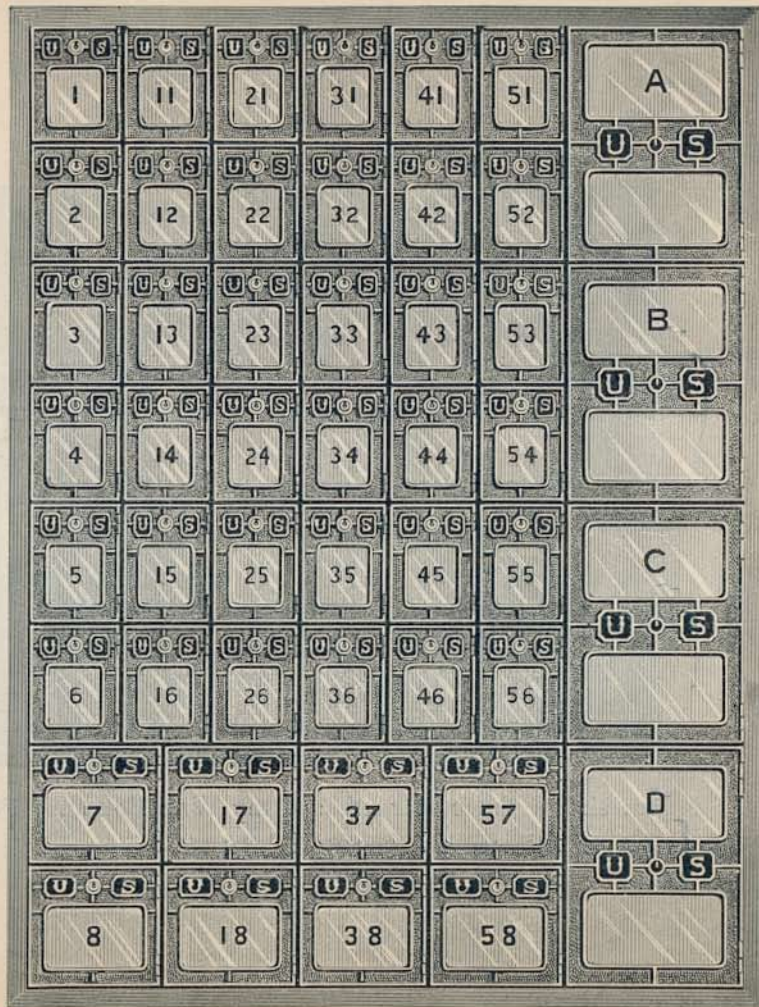

The above prices include numbering, and brass name clips are supplied for each box WITHOUT EXTRA CHARGE. There are no extras to swell the cost of an outfit.

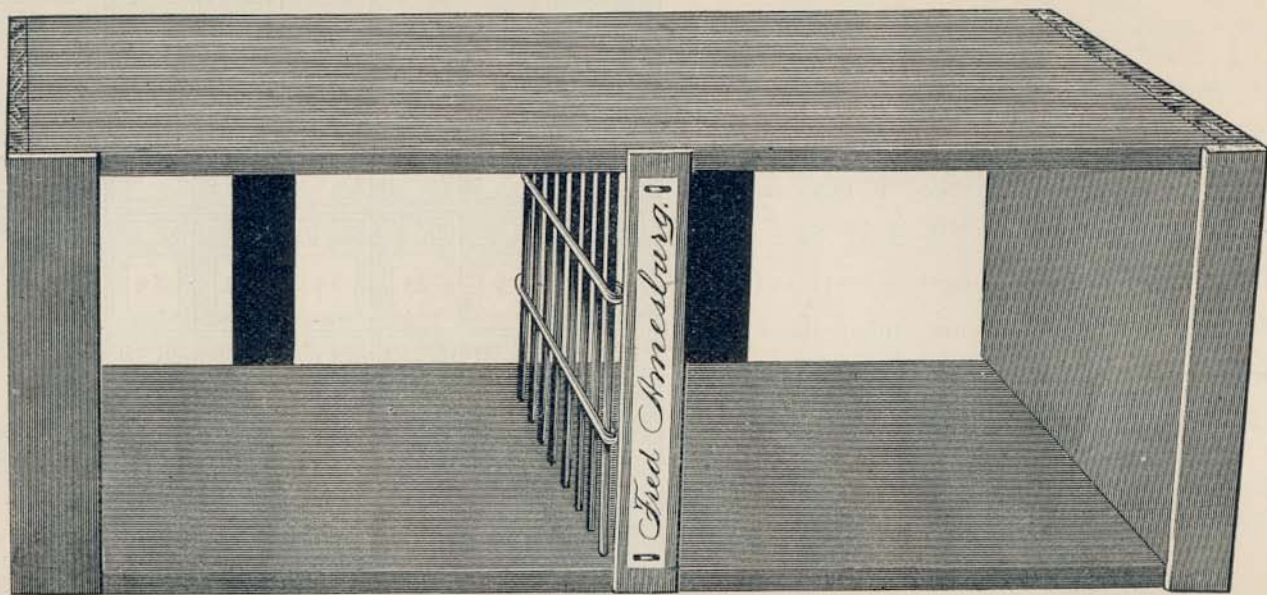

Please observe, that the inside dimensions of these Lock-Boxes are considerably larger than other makes. This is very important; small lock boxes are troublesome.

This Nest contains 36 No. 1 Boxes, 8
No. 2 Boxes, and 4 No. 3 Boxes.

This engraving shows how perfectly my "Harvard"
Bronze Boxes nest, two No. 2 boxes filling the same
width that three No. 1 boxes take, and one No. 3 is
as high as two No. 1 or No. 2 Boxes.

This cut shows the construction of my Wire-Bottomed Post-Office Boxes, showing position of wire and manner of holding name of box-renter.

BRONZE NUMBERS.

I furnish a very handsome number for numbering post-office boxes. It is made especially for this purpose, and is the best style of a number in use. They are gummed on either the face or the back, so as to stick on the inside of the glass or on the box back of the glass. When wanted gummed on the face, so specify.

Price per hundred, 50 cents.

NAME-CLIPS.

Name-clips, to put on the inside of boxes, to hold the name of box-renter. They are made of rolled brass, and are furnished with cards, on which to write name and number of box. They are a great convenience, and add to the looks of the office.

Price, including cards and escutcheon pins to fasten them to the boxes, 3 cents each.

BRONZE LETTER PLATES.

No. 1.

No. 1, with screws, postpaid, \$1.00.

LETTER AND PAPER CASES.

FOR GENERAL DELIVERY.

The accompanying cut shows a case for letters and papers, and is a very convenient arrangement where a few boxes are wanted. It is lettered on the vowel system, like the letter cases. There are a large number of these cases in use, and they give good satisfaction.

PRICES FOR LETTER AND PAPER CASES.

No.		Case only.	Glazed.
3	60 in. wide, 30 in. high, 78 divisions for letters, 30 for papers	\$13 00	\$18 00
4	(Like the cut), 53 in. wide, 50½ in. high; 156 divisions for letters, 36 for papers.....	18 00	22 00
6	For papers only, 48 in. wide, 51 in. high, 90 divisions	22 00	30 00

SASH ASH, ornamental obscure glass that cannot be seen through, but admits light.

READ OUR RECORD.

The following short extracts, taken at random from hundreds of similar letters, tell much better than I can of what postmasters think of my work:

The fixtures you furnished for this office are admitted by all who have seen them, to be the neatest in appearance and style, and the most complete in arrangement and convenience of any office in the state.

Postmaster, Marshall, Tex.

Your post-office outfit, which I purchased last June, is a beauty, and has given perfect satisfaction. The patrons of the office are much pleased with it.

Postmaster, Oregon, Wis.

The outfit has proved an excellent investment; the patrons of the office are proud of it.

Postmaster, Liberal, Mo.

The cabinet came all right, and there is not a nicer or neater cabinet in the country than your No. 25.

Postmaster, Melrose, Ohio.

The P. O. outfit is eminently satisfactory, and the patrons of the office express much gratification over its neat and handsome appearance.

Postmaster, Marlin, Tex.

I put my boxes up yesterday; I am delighted with them. They are the admiration of all that see them. The locks are perfect, the ash and walnut make a beautiful contrast. I am satisfied that for beauty, durability and convenience they cannot be excelled.

Postmaster, Cave Spring, Ga.

I am very much pleased with my outfit. The people tell me I have the nicest outfit in this section of the state. I am very proud of it.

Postmaster, Luray, Va.

The cabinet I bought of you last summer is very satisfactory, and I don't see how one can be arranged better for a small office than No. 38.

Postmaster, West Falmouth, Mass.

Your cabinet No. 22 has proved highly satisfactory.

Postmaster, Flagstone, Penn.

Our outfit is more admired every day; shall need more lock-boxes.

Postmaster, Ripley, Ohio.

The No. 18 cabinet and lock-boxes received, and am more than pleased with them; they give entire satisfaction.

Postmaster, Dexter City, Ohio.

Your complete post-office outfit received—are first-class, and giving general satisfaction. They are fully up to my expectations.

Postmaster, Wellington, Kan.

The outfit for this office (500 call, 150 lock-boxes) was set up in one night. An experience of six months has satisfied me that it is just what I wanted. The people are pleased

with it, and say that it is the best-looking office in Eastern Connecticut.

Postmaster, Danielsonville, Conn.

The post-office outfit purchased of you has given the utmost satisfaction, and I consider it superior to anything in the market. The patent wire bottoms are a great convenience.

Postmaster, Altoona, Fla.

I am using the No. 40 cabinet and lock boxes purchased of you, and like them splendid; for neatness and convenience they cannot be surpassed.

Postmaster, Sylvan Grove, Kan.

Your fixtures have been placed in position, and I am well pleased with them.

Postmaster, Saint Ignace, Mich.

Permit me to testify to the merits of your cabinet No. 36; it is certainly a model office for convenience, beauty of finish and completeness.

Postmaster, Pence City, Kan.

I am using a complete outfit of your make, and like it very much.

Postmaster, Lancaster, Ky.

MONEY-ORDER WINDOW.

This cut represents my No. 2 Money-Order Window. It is 24 inches wide, has shelves on both sides, and is furnished with a sliding ornamental glass door, also sign. They are made of solid ash or walnut, highly polished.

Price for 24-inch Money-Order Window, Walnut, - - \$12.00

Price for 24-inch Money-Order Window, Ash. - - 10.50

This size and style window can be used for any other delivery purposes; all that is necessary is to add a different sign, all of which I carry in stock.
