CONNECTICUT
Mutual Life Insurance Company
 OF HARTFORD.

Accumulated Capital over \$3,000,000

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is established upon the *strictly mutual system*, with a tariff of premiums as low as is justifiable for the security and permanency desirable and even indispensable for an institution of this character. It was organized in December, 1846, and has become one of the largest associations of the kind in the United States. The large number contributing to the funds of the institution, affords abundant security to the insured, and ample protection to the Company, from all embarrassment and dangers, arising from fluctuations in the average rate of mortality, so hazardous to institutions of limited numbers. Each person taking out a policy becomes a member, has a vote and direct voice in the management of the affairs of the company, and is entitled to his proportion of the surplus or profits, without being personally liable beyond the annual premium for the continuance of his policy. When the premium amounts to \$50, or more, a note for one-half the amount can be given if desired.

Dividends are declared annually, and credited to all Life Policy holders, pro rata to the premium they pay, and are paid during the *lifetime of the insured*, thus aiding them in settling future premiums—in *cash* to those who pay their premiums in cash, or applied to cancel the notes of those who pay their premiums partly by note.

Risks in all the various forms of Life Insurance, and for residence in Australia, California, and the gold regions of Kansas, as well as in foreign countries, taken by this Company at the usual mutual rates.

GRAND & SQUARE PIANOS

JOHN B. DUNHAM,

MANUFACTURER OF THE CELEBRATED

DUNHAM PIANOFORTE

The Dunham Pianoforte has gained a celebrity in the musical world which has created demand for it in every section of the country.

This celebrity is based upon the intrinsic merits of the instruments.

ITS TONE is large, round and exquisitely sweet.

ITS SCALE is perfectly equal in the virtues of its quality throughout.

ITS TOUCH is light and elastic, springing up to the finger and still firm and powerful.

ITS MANUFACTURE is thorough in every department, each section being supervised by competent foremen, and the whole overseen by the manufacturer in person.

JOHN B. DUNHAM, in offering to the patronage of the public

THE DUNHAM PIANOFORTE

Relies upon the reputation thus awarded, unsought and unsolicited, and confidently asserts that all instruments bought from his establishment will be warranted in every way for any length of time the purchaser requires, and worthy the reputation of a first-class house.

C A D D I E S .

JAMES PYLE,

No. 345 Washington Street, New York,

CORNER OF FRANKLIN STREET,

Furnishes TEA CADDIES of all sizes, from 2 to 20 lbs., which will nest so that a Caddy 13 inches square, will hold six smaller ones inside, and being made light, can be transported to any part of the Country, at a small expense; by which means Western and Southern Dealers can repack their Teas at home, with more satisfaction, at a quarter less expense, than they could have them done in New York, or purchase them already packed.

These Caddies have the appearance of original boxes, and are labeled fac-simile of the latest chops of Green and Black Teas.

Small packages contribute largely in effecting sales, as many Families, Steamboats, &c., will buy a 6 or 10 lb. Caddy of good Tea, when they would take but a pound or two, if done up in paper; on the other hand, small Retail Stores seldom buy a chest of high price Tea at a time.

We find that OUR CUSTOMERS INCREASE THEIR ORDERS EVERY YEAR, which speaks much in favor of the use of Caddies.

Fancy Caddies, of various colors

ALWAYS ON HAND.

They are handsomely got up, and make a beautiful show for shelves and windows.

Teas Repacked to order when Required.

Artificial Arms and Legs.

PALMER'S PATENT LEG,
 378 BROADWAY,
 BY PALMER & CO.,

"In the mechanical compensation of lost parts, this admirable mechanism deserves particular notice, combining lightness and a successful imitation of the motions of the natural leg."—*World's Fair, London, 1851* Award. Prize Medal. "The best artificial leg."—*World's Fair, New York, 1853.* Silver Medal, the only one given for artificial legs." "After many years' observation of the working of these limbs, I am compelled to repeat, what I have already expressed in writing, that neither in Europe nor America, is there an instrument of the kind, worthy of comparison with them."—*THOMAS D. MUTTER, Prof. of Surgery in the Jefferson Med. College, Philadelphia.*

BOYNTON'S IMPROVED
SELF-CLEARING, SELF-PACKING, GAS-TIGHT, VENTILATING
FURNACE,

FOUR SIZES, Nos. 8, 9, 10, and 11.
PATENTED, AUGUST 22, 1854.

Adapted to all Classes of Public and Private Buildings.

The above **Furnace** has now been thoroughly tested for the last **Five Years** in nearly all parts of the **United States** and **British Provinces**, and is now admitted to be **unrivalled** in point of **power, durability, economy, simplicity**, and all those **qualities** so essential in a **Hot Air Furnace**.

The provision made in this **Furnace** for the **self-clearing** of the radiator, and the **self-packing** of the **joints**, are two very **strong points** in its favor, above every other furnace in the market. Another very **important** feature of this **Furnace** is found in the small number of **joints**, their **position**, and the **manner** of their **construction**. By referring to the above **Cut**, it will be seen the **only joints** are those where the **radiator** connects with the **body**, and the **body** with the **pot**, and these are so far below the **top** of the **radiator** as to be free from **pressure**. These joints are packed inside and out, and are made perfectly **gas-tight**. The **form** of these castings is such, that they are not in the least liable to **crack**; and they are made **thicker** than any furnace in the market. It is also very **low**, which is another great recommendation for it, especially when set in low cellars.

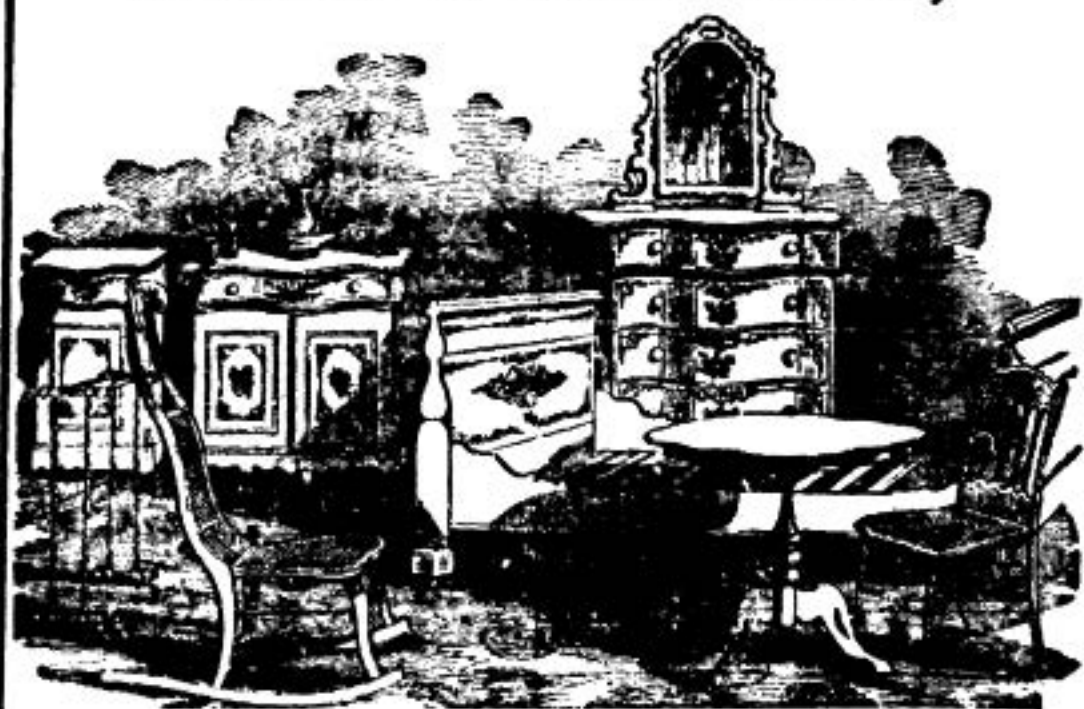

This **Furnace** is well adapted to the use of **Bituminous Coal**, and has been successfully introduced at the West the past three years. We are prepared to fill orders for them at short notice.

OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This celebrated article, after many years'
trial, has proved itself of great medical value.
The cures produced by its use have been
very remarkable. As a

SPRING AND SUMMER MEDICINE
It stands unrivalled, its good effects having
been tested by numerous individuals, in re-
moving Coughs, Colds and Incipient Con-
sumption. It is also very efficacious in cur-
ing Scrofula, Sore Eyes, Salt Rhum, and
Mercurial Disorders.

As a purifier of the blood, and for all cuta-
neous eruptions, as well as all disorders aris-
ing from a general derangement of the sys-
tem, it has probably no equal.

As a Female Medicine, it is especially
adapted to the diseases peculiar to that sex;

and to persons travelling by sea or land, it is invaluable. For sale by

1st.—The parallel point starts the nut
square. 2d.—The double thread gives a dou-
ble speed, firmly closing the joints before the
glue has time to chill, and 3d.—Because the
threads are solid and made of the best qual-
ity of iron. Signed by about 20 Stair Build-

CONNOR'S U. S. TYPE FOUNDRY,

Nos. 29, 31 & 33 Beekman St.,

NEAR THE CITY HALL,

NEW YORK.

TO PRINTERS AND PUBLISHERS.

The undersigned beg to inform the Trade that their

NEW QUARTO SPECIMEN BOOK,

now in the hands of the Binder, will be much enlarged and beautified with numerous new and elegant articles of a decidedly superior order, which to enumerate would occupy too much space. Yet they cannot forego calling the attention of printers to the

NEW SERIES OF SCOTCH CUT FACES,

from Pearl to Pica, surpassing, if possible,

THEIR ORIGINAL SCOTCH CUT FACES,

which have given such universal satisfaction East, West, North and South.

THE FANCY TYPE DEPARTMENT

exhibits an unsurpassable quantity of styles, of home origin, and selected from England, France, and Germany, and their

New Scripts, Italian Scripts, Bordering, &c.,

are not to be excelled in this or any other country; and this the undersigned make bold to say of their whole specimens, as the several styles have only to be seen to be appreciated. Attention is called to their German Department, wherein is shown as splendid

GERMAN FACES AND STYLES,

as can be seen in the German Confederation or the United States, particular attention having been given the subject in the selection from the very best Type Foundries throughout Germany, in ordering for Book, Job, and Newspaper Printing. All type cast at their establishment is now manufactured from Connor's celebrated

HARD TYPE METAL,

known to secure the printing of the enormous number of

TWENTY-TWO MILLIONS OF SHEETS,

and doing good service for the period of near one year—as will be verified at the office of The New York Herald, many of the Daily and Weekly Newspapers in this city and throughout the United States and Canadas, as well as by a large number of Book and Job Printers using Machine Power Presses.

Electrotyping and Stereotyping, in all their branches, executed in the best style. Type copper-faced to order, at an additional charge of about twenty per cent. Old Type received at our counting room in exchange for new, at 10 cents per pound. Six months' credit on approved paper; or a liberal deduction for cash.

SMITH, ATHERTON & CO.,

MANUFACTURERS OF THE JUSTLY CELEBRATED

AMERICAN IMPROVED PIANO FORTE.

Hundreds having had these Pianos for years in the United States, can testify to personal knowledge of their superiority over scores of other makers. These Pianos are all full SEVEN OCTAVE. Their construction is the most simple of any Piano Forte built, and they are the most enduring and **Full Toned Pianos** ever made. In short, our Pianos are constructed with all the MODERN IMPROVEMENTS conducive to superiority of TONE, TOUCH, DURABILITY and style of furniture.

Our prices are moderate and terms simple, as we sell for nothing but CASH. This being our MOTTO, we sell CHEAP, and GIVE THE PURCHASERS THE BENEFIT. With each Piano we give a written warrantee, which covers the Durability of the Instrument.

A look into our WAREROOMS, is respectfully solicited, where may be found a beautiful assortment of PIANOS AND MELODEONS, AT GREAT BARGAINS.

For Cash we Sell Cheap. On Time, we don't Sell at all.

THE PARAGON SELF GENERATING HAND GAS-LIGHT BURNER!

BUTLER, HOSFORD & CO., PROPRIETORS.

171 BROADWAY, NEW YORK,

1 COURTLANDT STREET, NEW YORK, and

2 COURT STREET, BROOKLYN. NEW YORK.

This valuable patent, portable, self-generating Gas Burner is offered to the public, in full confidence of its positive superiority over every other HAND LIGHT in existence, for SIMPLICITY, SAFETY, and ECONOMY producing **A Brilliant Gas Light**, requiring no trimming or other attention, except simply filling the lamp with good burning fluid, one quart of the fluid converted into gas in the Burner, giving a FULL BROAD and CLEAR flame eighteen hours.

This light, which is equal to that from eight ordinary wick

tubes, is under complete control, being reduced by a simple process, from a full blaze to a small one, and as quickly restored to its full capacity, and at

One-Third the Cost.

It is admirably adapted for lighting churches, dwellings, lecture-rooms, halls, shops, steamboats, and railroad cars, or wherever a good light is desired.

Parties desirous of securing the right of territory for a valuable article that will commend itself, should make early application, only to the above address.

Applied to all styles of Oil, Kerosene, Camphene, and Burning Fluid Lamps, also with founts to all kinds of Gas Fixtures, making its own gas in the burner as fast as required from Burning Fluid. By a simple screw it is instantly reduced from a full blaze to a small one, and as quickly restored. Always ready and in order. Goods forwarded to all parts of the United States, by express. Payable, cash on delivery. Send your orders as above.

COMBINES SIMPLICITY, SAFETY, AND ECONOMY!
