BROOKLYN WAREHOUSE COMPANY,

REDUCED RATES.

The rates of storage from May 1, 1850, will be reduced as per annexed Tariff, to meet the wishes of merchants in the West, desirous of shipping through their friends in New Orleans. No deduction will be made to any one from Tariff Rates.

The Company, in order to facilitate the storage and forwarding of Produce from the Western country, and Merchandise from the Eastern cities and foreign ports, have established Warehouses, with convenient Wharves, eighteen hundred feet front, where steamboats and ships can discharge Grain, Hemp and all goods (liable to damage,) free from exposure to the weather, and without expense of drayage, tarpaulings, &c.

For the accommodation of ships unloading cargoes of Salt, Rail Road Iron, Crates and other heavy and bulky articles, intended for the upper country, they have Railways leading from the wharves to the warehouses, saving both in time and expense.

It being the Great Depot for the Storage of Bulk and Sack Salt, Merchants in the West can at all times purchase on as favorable terms from parties storing there, and ship at as low rates of freight, as from the city; the condition of the article being infinitely better.

Separate wharves being allotted for flatboats, no detention will be experienced in discharging, nor interruptions occasioned by the arrival and departure of vessels and steamboats; there being no eddy, and the current gentle. (say one mile per hour.) A better harbour could not be desired for the discharging of flatboats into the warehouses or on vessels.

All Provisions, Grain, &c., stored at said warehouses, subject to sale in this market or destined for Northern ports, or Europe, can be as speedily sold and shipped, and on as favorable terms, as from New Orleans

**SHERMAN'S
SHOULDER BRACE**

'Tis well to read, as well to heed.

SHERMAN'S PATENT ELASTIC SHOULDER BRACE.

Is formed on the true principles of mechanical philosophy. It will keep the shoulders in their proper place, support and strengthen the back, enlarge the chest, and remedy habitual stooping or round shoulders, thereby giving a free and healthy action to the lungs, and a pleasing and graceful support to the figure. It is used with like benefit by the healthy and weakly, the old and the young—by the healthy, to guard against the distressing complaints that must inevitably follow the acquired habit of throwing the shoulder and the shoulder blades forward on the chest, and cramping the lungs and heart—by the weakly to regain the health they have imprudently thrown away—by the old as a means of comfort—and by the young to preserve a fine figure, not only for appearance, but for comfort, for no person can be free from pains and aches who has not a full and perfect chest, therefore every person of sedentary occupation must provide themselves with a good BRACE, or endure the unpleasant sensations arising from a knowledge of the fact that their strength is daily decreasing.

Parents should look to their children and not allow them to throw their shoulders forward, which they commonly do while at school, and misshape the body and predispose it to many complaints, the most frequent and fatal being Consumption.

Made and Sold at Sherman's Establishment, 70 St. Charles St., (opposite Union Street.)

Ladies can be Fitted at Mrs. Sherman's, 26 Noyades Street.

An Assortment constantly on hand for Infants, Children, Adults, Male and Female.
